REQUEST FOR PROPOSAL

1. ABOUT LIFE MISSION AND LIFE TOWERS

1.1 LIFE Mission is one among the four flagship missions of the Government of Kerala under NavakeralamKarmmaPadhathi. One of the major targets of the LIFE Mission is to provide decent homes for all the homeless who could not afford to have a house without societal backing. This includes construction of multi storied apartment complexes (LIFE Towers) for the total rehabilitation of landless homeless.

Hon'ble Chief Minister of Kerala has envisaged a need to provide sustainable and environment friendly housing in a time bound manner by 2021 to the homeless of the state without depleting the finite natural resources of our verdant state. LIFE Mission therefore proposes to introduce prefabricated technologies to address this large-scale housing construction in minimum time and minimum cost with efficient use of resources and environment friendly practices. **Land for over 80 LIFE Towers is ready. Stage I envisages one LIFE Tower each to be piloted in every district of Kerala. This RFP is for 10 (Ten) LIFE Towers.** The dry construction prefab technology with Light Gauge Steel Framed Structure system and Hybrid construction with Light Gauge Steel Framed Structure System in combination with Pre-Engineered steel structural system (PEB) is proposed to be adopted for these Pilot LIFE Towers.

1.2 Applications are invited from the Ten (10) Alternate Technology Providers listed under Light Gauge Steel Structural System and Pre-Engineered Steel Structural System identified for the Global Housing Technology Challenge- India organized by Ministry of Housing and Urban Affairs for construction of G+3/G+6 floor LIFE Towers and maintaining them during the defect liability period.

For the purpose of selection of bidders for construction of LIFE Towers (with G+3/G+6 configurations)in 10 districts where Pilot projects are to be executed is classified as follows.

Region 1- Kasaragod, Kannur, Wayanad, Kozhikode

Region 2- Kottayam, Idukki, Palakkad

Region 3- Alappuzha, Pathanamthitta, Kollam

The bids are being invited through this RFP to construct **G+3/G+6** floor apartment in **Region III**. The key challenge parameters for selection are the ability of the technology to deliver maximum number of dwelling units in minimum time and in optimum cost. The project completion period in all respect is 9 months after handing over of site and approvals. All the statutory approvals will be provided by the Chief Executive Officer, LIFE Mission Thiruvananthapuram on request of selected agency within 15 days from the date of award of contract to the selected agency to start timely construction work of LIFE Towers as per contract.

A LIFE Tower will have about 44 dwelling units in Kollam and Pathanamthitta and 156 dwelling units in Alappuzha housing complex. To promote sustainable housing it shall be built with Light Gauge Steel Framed Structure System in combination with Pre-Engineered steel structural system (PEB).

The size of each units constructed under LIFE Tower shall be of plinth area 500 sqft and minimum carpet area 400 sqft in accordance with the prevailing guidelines of the LIFE Mission. However, carpet area of the house may increase as per the design proposed by selected agency. Houses will be designed keeping in view the dimensional requirements laid down in National Building Code NBC2016 with good aesthetics, proper ventilation, orientation, as required to suit the climatic conditions of the location and with adequate storage space. Minimum requirement of the building design for LIFE MISSION is as follows:

Minimum requirement of the building design for LIFE MISSION Single dwelling unit

Plinth area	500	Sqft	46.45	Sqm
Carpet area to plinth area ratio	Not less than 0.8			

Space to be ensured and its approximate minimum area

Multipurpose hall	12	Sqm
Bed room 2 numbers	7.5 (each)	Sqm
Kitchen	5	Sqm
Balcony (preferably on back side)	2	Sqm
Toilet	1.5	Sqm
Bathroom	1.5	Sqm

Design should permit maximum natural ventilation

Apartment complex in general

Configuration of apartment Tower- G+3/G+6structure

Design should follow stipulations of KMBR/KPBR

Common areas covering stairs and corridors should be limited to 20% of total carpet area

Common facilities to be Provided	1000	sqft per 50 DU
Office space(covering meeting/ recreation hall+ living space for admin officer)	400	Sqft
Space for crush and elderly day Care	200+200	Sqft
Sick room	200	Sqft

Appropriate compound wall and gate may be provided.

All ducts should be accessible from common areas without disturbing houses. One of the stairs in each block should have minimum 2.0m width. Over all estimate should be limited to 10.5 lakh per DU

Note: Carpet area of the unit may increase as per the design proposed. Requirements laid down in National Building Code-NBC 2016 with good aesthetics, proper ventilation to suit the climatic conditions of the location with adequate storage space to be ensured.

Each LIFE Tower shall include on-site infrastructure development such as internal roads, pathways, common green area, boundary wall, water supply, sewerage, drainage, rain water harvesting, solar lighting, external electrification, etc. as defined in scope of work .Cluster design may include innovative system of water supply and drainage, renewable energy sources with special focus on solar energy.

Convergence with other existing Centrally and State Sponsored Schemes and Missions such as Smart Cities Mission, Atal Mission for Rejuvenation and Urban Transformation (AMRUT), Swachh Bharat Mission (Urban), National Urban Livelihood Mission (NULM), State Poverty Irradication Mission(Kudumbasree), Suchitwa Mission, Haritha Kerala Mission, Ujjwalla, Ujala, Make in India shall be ensured for LIFE Towers at each site.

The structural details shall be designed to meet the durability and safety requirements of applicable loads including earthquakes, cyclones and floods in accordance with the applicable Indian/International standards.

Bids for each location will be invited on Engineering Procurement Construction (EPC) basis and selected agency shall adhere to the Architectural drawings attached. Minor modifications for making it amenable to prefabricated construction shall be allowed. The revised architectural drawings shall be submitted within 5 days and the vetted structural design within 30 days after the approval of the revised architectural drawing. The agency shall submit detailed drawings to the designated officer in LIFE Mission State Office.

The project cost viz. the cost of Civil works along with internal infrastructure shall include planning and design charges, preparation of Detailed Project Report (hereinafter referred to as DPR) including Architectural and working drawings which are suitable for Construction, preparation of structural design, vetting of structural design from reputed institutions like IITs/NITs, required testing from NABL accredited labs, contingency charges etc. Project cost shall also include infrastructure development cost including cost of construction of internal roads, pathways, common green area, boundary wall, water supply, water tank, site development, internal electrification, sewerage, drainage, firefighting system, lift shafts and machine room, lifts for multistory blocks, transformers along with HT/LT panel, Sewage Treatment Plant (STP) and DG set for emergency backup power for lift operation, etc. with compliance of standard codal provisions, standard practices as per national Building Code 2016 (with amendments if any),CPWD manuals with approvals of project Manager deployed by the Chief Executive Officer, LIFE Mission, Govt of Kerala.

During the process of housing construction, necessary data, information and other details will be collected for archiving at LIFE Mission. Selected agency will provide necessary data & technical details for preparation of technical document with respect to the prefab Technology.

After completion of the LIFE Towers in all respect, it will have to be handed over to LIFE Mission/ Local Body after issuance of NOC from LIFE Mission. Further, normal routine maintenance of the LIFE Towers will be responsibility of the Local Body and expenditure will be met by them. However, any remedial measures pertaining to structural issues/ major distress occurring in the project/ houses will be taken up by the selected agency at their own cost for a period of five years

(Defect liability period) from the recorded date of completion of project. After allotment of LIFE Towers to the beneficiaries, the same will be maintained as per the provisions under LIFE Mission Guidelines.

To ensure sustainability after the houses are constructed, the selected agency shall ensure that an effective maintenance Manual is in place and necessary training and handholding is provided to Local Body, regarding relevant maintenance measures of the projects within five years of defect liability period. In this regard, EPC contractor has to submit complete brochure in six sets and educate beneficiaries towards technology used and its routine daily maintenance.

2. LIFE Mission hereby invites technical and financial bids for construction of LIFE Towers and maintaining them during the defect liability period at following locations in Region III under LIFE Mission using Light Gauge Steel Framed Structure System in combination with Pre-Engineered steel structural system(PEB)
 - i. Punnapra North GP, Alappuzha
 - ii. Pandalam Municipality, Pathanamthitta
 - iii. Punalur GP, Kollam

The location plan/lay-out plans and other relevant drawings of each project are provided as separate documents

- 3.0 Accordingly, LIFE Mission invites online Technical and Financial bids from eligible agencies who are willing to adopt Light Gauge Steel Framed Structure System in combination with Pre-Engineered steel structural system(PEB) for construction of about 44 Housing units and associated services at each of the above locations.

All residential buildings under LIFE Towers shall be built only with Light Gauge Steel Framed Structure System in combination with Pre-Engineered steel structural system (PEB). The participating agency should ensure that the system should satisfy NBC 2016 norms, CPWD manuals and Indian standard codal provisions towards structural safety, fire safety, thermal performance and fulfillment of other functional requirements of the buildings also complying provisions notified by Local Bodies.

- 3.1 The Participating agency eligible for participating in the bidding process (in EPC Mode) shall be from any one of the following two categories otherwise bids will be considered as non-responsive:

- i. **Category 1:** Single Business Entity shortlisted under Light Gauge Steel Framed Structure system and Hybrid construction with Light Gauge Steel Framed Structure System in combination with Pre-Engineered steel structural system(PEB) through the GHTC-India process
- ii. **Category 2:** A Consortium/Joint venture of Business Entities (hereinafter referred to as “Consortium”) with one shortlisted agency under Light Gauge Steel Framed Structure system and Hybrid construction with Light Gauge Steel Framed Structure System in combination with Pre-Engineered steel structural system(PEB) through the GHTC-India process(Category 1)
The term Participating agency would hereinafter apply to both the above-mentioned categories.

3.1.1 For the purpose of this RFP, the participating agency shall mean a business Entity incorporated under the Indian Companies Act 1956/2013 or incorporated under equivalent law abroad/Agency should be Participating Agency and should submit registration Certificates & GST Registration/ incorporation under the governing legislation as applicable. The Agency shall be required to submit a true copy of its Incorporation Certificate along with the Proposal.

3.2 The detail of the four LIFE Towers is as follows:

Site and Construction Area Details of 3 LIFE Towers

Note: Number of houses, floors, built-up/ carpet area may vary as per the plan9& location subject to approval from Competent Authority.

Preamble

WHEREAS the Principal / Owner has floated the Bid (RFP) No.
(hereinafter referred to as “Bid/Bid”) and intends to
award, under laid down organizational procedure, contract for
.....
..... (Name of work)
hereinafter referred to as the “Contract”.

AND WHEREAS the Principal/Owner values full compliance with all relevant laws of the land, rules, regulations, economic use of resources and of fairness/transparency in its relation with its Participating agency(s) and Participating agency(s).

AND WHEREAS to meet the purpose aforesaid both the parties have agreed to enter into this Integrity Agreement (hereinafter referred to as “Integrity Pact” or “Pact”), the terms and conditions of which shall also be read as integral part and parcel of the Bid/Bid documents and Contract between the parties.

NOW, THEREFORE, in consideration of mutual covenants contained in this Pact, the parties hereby agree as follows and this Pact witnesses as under:

Article 1: Commitment of the Principal/Owner

(1) LIFE Mission commits itself to take all measures necessary to prevent corruption and to observe the following principles:

- (a) No employee of the Principal/Owner, personally or through any of

his/her family members, will in connection with the Bid, or the

execution of the Contract, demand, take a promise for or accept, for self or third person, any material or immaterial benefit which the person is not legally entitled to.

- (b) LIFE Mission will, during the Bid process, treat all Participating agency(s) with equity and reason. LIFE Mission will, in particular, before and during the Bid process, provide to all Participating agency(s) the same information and will not provide to any Participating agency(s) confidential / additional information through which the Participating agency(s) could obtain an advantage in relation to the Bid process or the Contract execution.

The Principal/Owner shall endeavor to exclude from the Bid process any person, whose conduct in the past has been of biased nature.

(2) If LIFE Mission obtains information on the conduct of any of its employees which is a criminal offence under the Indian Penal code (IPC)/Prevention of Corruption Act, 1988 (PC Act) or is in violation of the principles herein mentioned or if there be a substantive suspicion in this regard, the Principal/Owner will inform the Chief Vigilance Officer/Competent Authority and in addition can also initiate disciplinary actions as per its internal laid down policies and procedures.

Article 2: Commitment of the Participating agency(s)/Participating agency(s)

- (1) It is required that each Participating agency/Participating agency (including their respective officers, employees and agents) adhere to the highest ethical standards, and report to the Government / Department all suspected acts of fraud or corruption or Coercion or Collusion of which it has knowledge or becomes aware, during the bidding process and throughout the negotiation or award of a contract.
- (2) The Participating agency(s)/Participating agency(s) commits himself to take all measures necessary to prevent corruption. He commits himself to observe the following principles during his participation in the Bid process and during the Contract execution:
 - (a) The Participating agency(s)/Participating agency(s) will not, directly or through any other person or firm, offer, promise or give to any of the Principal/Owner's employees involved in the Bid process or execution of the Contract or to any third person any material or other benefit which he/she is not legally entitled to, in order to obtain in exchange any advantage of any kind whatsoever during the Bid process or during the execution of the Contract.
 - (b) The Participating agency(s)/Participating agency(s) will not enter with other Participating agency(s) into any undisclosed agreement or understanding, whether formal or informal. This applies in particular to prices, specifications, certifications, subsidiary contracts, submission or non-submission of bids or any other actions to restrict competitiveness or to cartelize in the bidding process.
 - (c) The Participating agency(s)/Participating agency(s) will not commit any offence under the relevant IPC/PC Act. Further the Participating agency(s)/ Contract(s) will not use improperly, (for the purpose of competition or personal gain), or pass on to others, any information or documents provided by the Principal/Owner as part of the business relationship, regarding plans, technical proposals and business details, including information contained or transmitted electronically.

- (d) The Participating agency(s)/Participating agency(s) of foreign origin shall disclose the names and addresses of agents/ representatives in India, if any. Similarly Participating agency(s)/Participating agency(s) of Indian Nationality shall disclose names and addresses of foreign agents/representatives, if any. Either the agent on behalf of the foreign principal or the foreign principal directly could bid in a bid but not both. Further, in cases where an agent participate in a bid on behalf of
- one manufacturer, he shall not be allowed to quote on behalf of another manufacturer along with the first manufacturer in a subsequent/parallel bid for the same item.
- (e) The Participating agency(s)/Participating agency(s) will, when presenting his bid, disclose any and all payments he has made, is committed to or intends to make to agents, brokers or any other intermediaries in connection with the award of the Contract.
- (3) The Participating agency(s)/Participating agency(s) will not instigate third persons to commit offences outlined above or be an accessory to such offences.
- (4) The Participating agency(s)/Participating agency(s) will not, directly or through any other person or firm indulge in fraudulent practice means a willful misrepresentation or omission of facts or submission of fake/forged documents in order to induce public official to act in reliance thereof, with the purpose of obtaining unjust advantage by or causing damage to justified interest of others and/or to influence the procurement process to the detriment of the Government interests.
- (5) The Participating agency(s)/Participating agency(s) will not, directly or through any other person or firm use Coercive Practices (means the act of obtaining something, compelling an action or influencing a decision through intimidation, threat or the use of force directly or indirectly, where potential or actual injury may befall upon a person, his/ her reputation or property to influence their participation in the bidding process).

Article 3: Consequences of Breach

Without prejudice to any rights that may be available to the Principal/Owner under law or the Contract or its established policies and laid down procedures, the Principal/Owner shall have the following rights in case of breach of this Integrity Pact by the Participating agency(s)/Participating agency(s) and the Participating agency/ Participating agency accepts and undertakes to respect and uphold the Principal/Owner's absolute right:

- (1) If the Participating agency(s)/Participating agency(s), either before award or during execution of Contract has committed a transgression through aviolation of Article 2 above or in any other form, such as to put his reliability or credibility in question, the Principal/Owner after giving 14 days notice to the participating agency shall have powers to disqualify the Participating agency(s)/Participating agency(s) from the Bid process or terminate/determine the Contract, if already executed or exclude the Participating agency/Participating agency from future contract award processes. The imposition and duration of the exclusion will be determined by the severity of transgression and determined by the Principal/Owner. Such exclusion may be forever or for a limited period as decided by the Principal/Owner.
- (2) Forfeiture of EMD/Performance Guarantee/Security Deposit: If the Principal/Owner has disqualified the Participating agency(s) from the Bid process prior to the award of the Contract

or terminated/determined the Contract or has accrued the right to terminate/determine the Contract according to Article 3(1), the Principal/Owner apart from exercising any legal rights that may have accrued to the Principal/Owner, may in its considered opinion forfeit the entire amount of Earnest Money Deposit, Performance Guarantee and Security Deposit of the Participating agency/Participating agency.

- (3) Criminal Liability: If the Principal/Owner obtains knowledge of conduct of a Participating agency or Participating agency, or of an employee or a representative or an associate of a Participating agency or Participating agency which constitutes corruption within the meaning of IPC Act, or if the Principal/Owner has substantive suspicion in this regard, the Principal/Owner will inform the same to law enforcing agencies for further investigation.

Article 4: Previous Transgression

- (1) The Participating agency declares that no previous transgressions occurred in the last 5 years with any other Company in any country confirming to the anticorruption approach or with Central Government or State Government or any other Central/State Public Sector Enterprises in India that could justify his exclusion from the Bid process.
- (2) If the Participating agency makes incorrect statement on this subject, he can be disqualified from the Bid process or action can be taken for banning of business dealings/ holiday listing of the Participating agency/Participating agency as deemed fit by the Principal/ Owner.
- (3) If the Participating agency/Participating agency can prove that he has resorted/recouped the damage caused by him and has installed a suitable corruption prevention system, the Principal/Owner may, at its own discretion, revoke the exclusion prematurely.

Article 5: Equal Treatment of all Participating Agency/Participating agencies/Sub-participating agency(s)

- (1) The Participating agency(s)/Participating agency(s) undertake(s) to demand 53 from all sub participating agency a commitment in conformity with this Integrity Pact. The Participating agency/Participating agency shall be responsible for any violation(s) of the principles laid down in this agreement/Pact by any of its sub participating agency/sub-vendors.
- (2) The Principal/Owner will enter into Pacts on identical terms as this one with all Participating Agency and Participating agency.
- (3) The Principal/Owner will disqualify Participating Agency, who do not submit, the duly signed Pact between the Principal/ Owner and the participating agency, along with the Bid or violate its provisions at any stage of the Bid process, from the Bid process.

Article 6- Duration of the Pact

This Pact begins when both the parties have legally signed it. It expires for the Participating agency/Vendor five years after the completion of work under the contract or till the continuation of defect liability period, whichever is more and for all other Participating Agency, till the Contract has been awarded. If any claim is made/lodged during the time, the same shall be binding and continue to be valid despite the lapse of this Pacts as specified above, unless it is discharged/determined by the Competent Authority, LIFE Mission.

Article 7- Other Provisions

- (1) This Pact is subject to Indian Law, place of performance and jurisdiction is the Head quarters of the Division of the Principal/Owner, who has floated the Bid.
- (2) Changes and supplements need to be made in writing. Side agreements have not been made.
- (3) If the Participating agency is a partnership or a consortium, this Pact must be signed by all the partners or by one or more partner holding power of attorney signed by all partners and consortium members. In case of a Company, the Pact must be signed by a representative duly authorized by board resolution.
- (4) Should one or several provisions of this Pact turn out to be invalid; the remainder of this Pact remains valid. In this case, the parties will strive to come to an agreement to their original intensions.
- (5) It is agreed term and condition that any dispute or difference arising between the parties with regard to the terms of this Integrity Agreement/ Pact, any action taken by the Owner/Principal in accordance with this Integrity Agreement/Pact or interpretation thereof shall not be subject to arbitration.

Article 8- LEGAL AND PRIOR RIGHTS

All rights and remedies of the parties hereto shall be in addition to all the other legal rights and remedies belonging to such parties under the Contract and/or law and the same shall be deemed to be cumulative and not alternative to such legal rights and remedies aforesaid.  - (a) Failure by the selected agency to extend the validity of the Performance Bank Guarantee as described herein above, in which event the Competent Authority may claim the full amount of the Performance Bank Guarantee.

 - (b) Failure by the selected agency to pay LIFE Mission any amount due, either as agreed by the selected agency or determined under any of the Clauses/Conditions of the agreement, within 30 days of the service of notice to this effect by Competent Authority.

 - (c) In the event of the contract being determined or rescinded under provision of any of the Clause/Condition of the agreement, the Performance Bank Guarantee shall stand forfeited in full and shall be absolutely at the disposal of LIFE Mission.

 - (d) On substantial Completion of any work which has been completed to such an extent that the intended purpose of the work is met and ready to use, then a provisional completion certificate shall be recorded by the Competent Authority. The provisional certificate shall have appended with a list of outstanding balance item of work that need to be completed in accordance with the provisions of the contract.

This provisional completion certificate shall be recorded by Competent Authority with the approval of LIFE Mission.

1A. Recovery of Security Deposit

The person/persons whose bid(s) may be accepted (hereinafter called the selected agency) shall permit LIFE Mission at the time of making any

payment to selected agency for work done under the contract to deduct a sum at the rate of 5% of the gross amount of each running and final bill till the sum deducted will amount to security deposit of 5% of the contract value of the work. Such deductions will be made and held by Government by way of Security Deposit unless he/they has/have deposited the amount of Security at the rate mentioned above in the form of Government Securities or Fixed Deposit receipts. In case a Fixed Deposit receipt of any Bank is furnished by the selected agency to the Government as part of the Security Deposit and the Bank is unable to make payment against the said Fixed Deposit receipt, the loss caused thereby shall fall on the selected agency and the selected agency shall forthwith on demand furnish additional security to the Government to make good the deficit.

All compensations or the other sums of money payable by the selected agency under the terms of this contract may be deducted from, or paid by the sale of a sufficient part of his security deposit or from the interest arising there from, or from any sums which may be due to or may become due to the selected agency by Government on any account whatsoever and in the event of his Security Deposit being reduced by reason of any such deductions or sale as aforesaid, the selected agency shall within 10 days make good in cash or Fixed Deposit receipt bided by the State Bank of India or by scheduled Banks or Government Securities (if deposited for more than 12 months) endorsed in favour of the Competent Authority, any sum or sums which may have been deducted from, or raised by sale of his security deposit or any part thereof.

The Security Deposit shall be collected from the running bills and the final bill of the selected agency at the rates mentioned in the contract.

1B. Mobilization Advance

Mobilization advance not exceeding 10% of the tendered value may be given, if requested by the contractor in writing within one month of the order to commence the work. Such advance shall be in two or more installment to be determined by the Engineer-in- Charge at his sole discretion. The first installment of such advance shall be released by the Engineer-in-charge to the contractor on a request made by the contractor to the Engineer-in-Charge in this behalf. The second and subsequent installment shall be released by the Engineer- in- Charge only after the contractor furnishes a proof of the satisfactory utilization of the earlier installment to the entire satisfaction of the Engineer-in-Charge.

Before any installment of advance is released, the contractor shall execute a Bank Guarantee Bond from Scheduled Bank for the amount equal to 110% of the amount of advance and valid for the contract period. This (Bank Guarantee from Scheduled Bank for the amount equal to 110% of the balance amount of advance) shall be kept renewed from time to time to cover the balance amount and likely period of complete recovery.

2. Compensation for Delay

If the selected agency fails to maintain the required progress or to complete the work and clear the site on or before the contract or justified extended date of completion, as per clause 5 (excluding any extension under Clause 5.5) as well as any extension granted under clauses 12 and 15, selected agency shall, without prejudice to any other right or remedy available under the law to the Government on account of such breach, pay as agreed compensation the amount calculated at the rates stipulated below as the authority LIFE Mission or their designee/representative may decide on the amount of Bided Value of the work for every

completed day/month (as determined) that the progress remains below that specified in Clause 5 or that the work remains incomplete.

This will also apply to items or group of items for which a separate period of completion has been specified.

(i) Compensation @ 1 % per month of delay

For delay of work to be computed on per day basis. Provided always that the total amount of compensation for delay to be paid under this Condition shall not exceed 5% of the contract value of work or of the contract value of the Sectional part of work for which a separate period of completion is originally given.

Provided that compensation during the progress of work before the justified extended date of completion for delay under this clause shall be for non-achievement of sectional completion or part handing over of work on stipulated/justified extended date for such part work or if delay affects any other works/services. This is without prejudice to right of action by the Competent Authority under clause 3 for delay in performance and claim of compensation under that clause.

In case action under clause 2 has not been finalized and the work has been determined under clause 3, the right of action under this clause shall remain post determination of contract but levy of compensation shall be for days the progress is behind the schedule on date of determination, as assessed by LIFE Mission or their designee/representative after due consideration of justified extension. The compensation for delay, if not decided before the determination of contract, shall be decided after of determination of contract.

The amount of compensation may be adjusted or set-off against any sum payable to the selected agency under this or any other contract with the Government. In case, the selected agency does not achieve a particular milestone mentioned in this document or the re-scheduled milestone(s) in terms of Clause 5.4, the amount shown against that milestone shall be withheld, to be adjusted against the compensation levied as above. With-holding of this amount on failure to achieve a milestone, shall be automatic without any notice to the selected agency. However, if the selected agency catches up with the progress of work on the subsequent milestone(s), the withheld amount shall be released. In case the selected agency fails to make up for the delay in subsequent milestone(s), amount mentioned against each milestone missed subsequently also shall be withheld. However, no interest, whatsoever, shall be payable on such withheld amount.

3. When Contract can be Determined

Subject to other provisions contained in this clause, the Competent Authority may, without prejudice to his any other rights or remedy against the selected agency in respect of any delay, inferior workmanship, any claims for damages and/or any other provisions of

this contract or otherwise, and whether the date of completion has or has not elapsed, by notice in writing absolutely determine the contract in any of the following cases:

(i) If the selected agency having been given by the Competent Authority a notice in writing to rectify, reconstruct or replace any defective work or that the work is being performed in an inefficient or otherwise improper or poor workmanship shall omit to comply with the requirement of such notice for a period of seven days thereafter.

- (ii) If the selected agency has, without reasonable cause, suspended the progress of the work or has failed to proceed with the work with due diligence and continues to do so after a notice in writing of seven days from the Competent Authority.
- (iii) If the selected agency fails to complete the work or section of work with individual date of completion on or before the stipulated or justified extended date, on or before such date of completion; and the Competent Authority without any prejudice to any other right or remedy under any other provision in the contract has given further reasonable time in a notice given in writing in that behalf as either mutually agreed or in absence of such mutual agreement by his own assessment making such time essence of contract and in the opinion of Competent Authority the selected agency will be unable to complete the same or does not complete the same within the period specified.
- (iv) If the selected agency persistently neglects to carry out his obligations under the contract and/or commits default in complying with any of the terms and conditions of the contract and does not remedy it or take effective steps to remedy it within 7 days after a notice in writing is given to him in that behalf by the Competent Authority.
- (v) If the selected agency shall offer or give or agree to give to any person in Government service or to any other person on his behalf any gift or consideration of any kind as an inducement or reward for doing or forbearing to do or for having done or forborne to do any act in relation to the obtaining or execution of this or any other contract for Government.
- (vi) If the selected agency shall enter into a contract with Government in connection with which commission has been paid or agreed to be paid by him or to his knowledge, unless the particulars of any such commission and the terms of payment thereof have been previously disclosed in writing to the Competent Authority.
- (vii) If the selected agency had secured the contract with Government as a result of wrong bidding or other non-bonafide methods of competitive bidding or commits breach of Integrity Agreement.
- (viii) If the selected agency being an individual, or if a firm, any partner thereof shall at any time be adjudged insolvent or have a receiving order or order for administration of his estate made against him or shall take any proceedings for liquidation or composition (other than a voluntary liquidation for the purpose of amalgamation or reconstruction) under any Insolvency Act for the time being in force or make any conveyance or assignment of his effects or composition or arrangement for the benefit of his creditors or purport so to do, or if any application be made under any Insolvency Act for the time being in force for the sequestration of his estate or if a trust deed be executed by him for benefit of his creditors.
- (ix) If the selected agency being a company shall pass a resolution or the court shall make an order that the company shall be wound up or if a receiver or a manager on behalf of a creditor shall be appointed or if circumstances shall arise which entitle the court or the creditor to appoint a receiver or a manager or which entitle the court to make a winding up order.
- (x) If the selected agency shall suffer an execution being levied on his goods and allow it to be continued for a period of 21 days.

- (xi) If the selected agency assigns, (excluding part(s) of work assigned to other agency(s) by the selected agency as per terms of contract), transfers, sublets (engagement of labour on a piece-work basis or of labour with materials not to be incorporated in the work, shall not be deemed to be subletting) or otherwise parts with or attempts to assign, transfer, sublet or otherwise parts with the entire works or any portion thereof without the prior written approval of the Competent Authority.

- (xii) When the selected agency has made himself liable for action under any of the cases aforesaid, the Competent Authority on behalf of the Governor of Kerala shall have powers:
 - (a) To determine the contract as aforesaid so far as performance of work by the selected agency is concerned (of which determination notice in writing to the selected agency under the hand of the Competent Authority shall be conclusive evidence). Upon such determination, the Earnest Money Deposit, Security Deposit already recovered and Performance Guarantee under the contract shall be liable to be forfeited and shall be absolutely at the disposal of the Government.

 - (b) After giving notice to the selected agency to measure up the work of the selected agency and to take such whole, or the balance or part thereof, as shall be un-executed out of his hands and to give it to another participating agency to complete the work. The selected agency, whose contract is determined as above, shall not be allowed to participate in the bidding process for the balance work. In the event of above courses being adopted by the Competent Authority, the selected agency shall have no claim to compensation for any loss sustained by him by reasons of his having purchased or procured any materials or entered into any engagements or made any advances on account or with a view to the execution of the work or the performance of the contract. And in case action is taken under any of the provision aforesaid, the selected agency shall not be entitled to recover or be paid any sum for any work thereof or actually performed under this contract unless and until the Competent Authority has certified in writing the performance of such work and the value payable in respect thereof and he shall only be entitled to be paid the value so certified.

4.0 Selected agency liable to pay Compensation even if action not taken under

Clause 3

In any case in which any of the powers conferred upon the Competent Authority by Clause-3 thereof, shall have become exercisable and the same are not exercised, the non-exercise thereof shall not constitute a waiver of any of the conditions hereof and such powers shall notwithstanding be exercisable in the event of any future case of default by the selected agency and the liability of the selected agency for compensation shall remain unaffected. In the event of the Competent Authority putting in force all or any of the powers vested in him under the preceding clause he may, if he so desires after giving a notice in writing to the selected agency, take possession of (or at the sole discretion of the Competent Authority which shall be final and binding on the selected agency) use as on hire (the amount of the hire money being also in the final determination of the Competent Authority) all or any tools, plant, materials and stores, in or upon the works, or the site thereof belonging to the selected agency, or procured by the selected agency and intended to be used for the

execution of the work/or any part thereof, paying or allowing for the same in account at the contract rates, or, in the case of these not being applicable, at current market rates to be certified by the Competent Authority, whose certificate thereof shall be final, and binding on the selected agency, clerk of the works, foreman or other authorized agent to remove such tools, plant, materials, or stores from the premises (within a time to be specified in such notice) and in the event of the selected agency failing to comply with any such requisition, the Competent Authority may remove them at the selected agency's expense or sell them by auction or private sale on account of the selected agency and his risk in all respects and the certificate of the Competent Authority as to the expenses of any such removal and the amount of the proceeds and expenses of any such sale shall be final and conclusive against the selected agency.

5. Time and Extension for Delay

The time allowed for execution of the Works or the extended time in accordance with these conditions shall be the essence of the Contract.

The execution of the works shall commence from such time period as mentioned in this document or from the date of handing over of the site notified by the Competent Authority, whichever is later. However, the handing over of site by the Competent Authority, in full or in part shall be completed within six months from issue of acceptance letter. If the selected agency commits default in commencing the execution of the work as aforesaid, the Performance Bank Guarantee shall be forfeited by the Competent Authority and shall be absolutely at the disposal of the Government without prejudice to any other right or remedy available in law. The time period for completion of the project will be extended with imposition of compensation for delay only.

5.1 As soon as possible but within ten(10) days of award of work and statutory approvals in consideration of

- a) Schedule of handing over of site
- b) Schedule of issue of designs

- (i) The selected agency shall submit a Time and Progress Chart for each mile stone. The Competent Authority may within 30 days thereafter, if required modify, and communicate the program approved to the selected agency failing which the program submitted by the selected agency shall be deemed to be approved by the Competent Authority. The work programme shall include all details of balance drawings and decisions required to complete the contract with specific dates by which these details are required by selected agency without causing any delay in execution of the work. The Chart shall be prepared in direct relation to the time stated in the contract documents for completion of items of the works. It shall indicate the forecast of the dates of commencement and completion of various trades of sections of the work and may be amended as necessary by agreement between the Competent Authority and the selected agency within the limitations of time imposed in the contract documents, and further to ensure good progress during the execution of the work, the selected agency shall in all cases in which the time allowed for any work, exceeds 15days (save for special jobs for which a separate program has been agreed upon) complete the work as per mile stones

- (ii) In case of non-submission of construction program by the selected agency the program approved by the Competent Authority shall be deemed to be final.
- (iii) The approval by the Competent Authority of such program shall not relieve the selected agency of any of the obligations under the contract.
- (iv) The selected agency shall submit the time and progress chart and progress report using the mutually agreed software or in other format decided by Competent Authority for the work done during previous month to the Competent Authority on or before 5th day of each month.

5.2 If the work(s) be delayed by:-

- (i) Force majeure, or
- (ii) Abnormally bad weather, or
- (iii) Serious loss or damage by fire, or
- (iv) Civil commotion, local commotion of workmen, strike or lockout, affecting any of the trades employed on the work, or
- (v) Delay on the part of other selected agency or tradesmen engaged by Competent Authority in executing work not forming part of the contract, or
- (vi) Non-availability of stores, which are the responsibility of Government to supply or
- (vii) Non-availability or break down of tools and Plant to be supplied or supplied by Government or
- (viii) Any other cause like above which, in the reasoned opinion of the Competent Authority is beyond the selected agency's control.

Then upon the happening of any such event causing delay, the selected agency shall immediately give notice thereof in writing to the Competent Authority for entry in the hindrance register (physical or web-based but shall nevertheless use constantly his best endeavors to prevent or make good the delay and shall do all that may be reasonably required to the satisfaction of the Competent Authority to proceed with the works.

The selected agency shall have no claim of damages for extension of time granted or rescheduling of milestone/s for events listed in subclause 5.2.

5.3 In case the work is hindered by any reasons, in the opinion of the selected agency, by the Department or for someone for whose action the Department is responsible, the selected agency may immediately give notice thereof in writing to the Competent Authority in the same manner as prescribed under sub Clause 5.2 seeking extension of time or rescheduling of milestone/s. The authority as indicated in Memorandum shall, if justified, give a fair and reasonable extension of time and reschedule the mile stones for completion of work after due consideration of the same within 30 days of receipt of such request. In event of non application by the selected agency for extension of time Competent Authority after affording opportunity to the selected agency may give, supported with a programme, a fair and reasonable extension within a reasonable period of occurrence of the event.

Such extension of time or rescheduling of milestone/s shall be without prejudice to any other right or remedy of the parties in contract or in law; provided further that for concurrent delays under this sub clause and sub clause 5.2 to the extent the delay is covered under sub clause 5.2 the selected agency shall be entitled to only extension of time and no damages.

5.4 Request for rescheduling of mile stones or extension of time, to be eligible for consideration, shall be made by the selected agency in writing within fourteen days of the happening of the event causing delay on the prescribed forms to be made available by Competent Authority. The selected agency shall indicate in such a request the period by which rescheduling of milestone/s or extension of time is desired. With every request for rescheduling of milestones, or if at any time the actual progress of work falls behind the approved programme by more than 10% of the stipulated period of completion of contract, the selected agency shall produce a revised programme which shall include all details of pending drawings and decisions required to complete the contract and also the target dates by which these details should be available without causing any delay in execution of the work. A recovery as specified in memorandum shall be made on per day basis in case of delay in submission of the revised programme.

5.4.1 In any such case the authority as indicated in memorandum may give a fair and reasonable extension of time for completion of work or reschedule the mile stones. Such extension or rescheduling of the milestones shall be communicated to the selected agency by the authority as indicated in memorandum in writing, within 30 days of the date of receipt of such request from the selected agency in prescribed form. In event of non application by the selected agency for extension of time Competent Authority after affording opportunity to the selected agency may give, supported with a programme (as specified under 5.4 above), a fair and reasonable extension within a reasonable period of occurrence of the event.

5.5 In case the work is delayed by any reasons, in the opinion of the Competent Authority, by the selected agency for reasons beyond the events mentioned in clause 5.2 or clause 5.3 or clause 5.4 and beyond the justified extended date; without prejudice to right to take action under Clause 3, the Competent Authority may grant extension of time required for completion of work without rescheduling of milestones. The selected agency shall be liable for levy of compensation for delay for such extension of time.

6.0 Measurements of Work Done

Competent Authority shall, except as otherwise provided, ascertain and determine by measurement, the value in accordance with the contract of work done.

All measurement of all items having financial value shall be entered in Measurement Book (MB) and/or level field book so that a complete record is obtained of all works performed under the contract. All measurements and levels shall be taken jointly by the Competent Authority or his authorized representative and by the selected agency or

his authorized representative from time to time during the progress of the work and such measurements shall be signed and dated by the Competent Authority and the selected agency or their representatives in token of their acceptance. If the selected agency objects to any of the measurements recorded, a note shall be made to that effect with reason and signed by both the parties.

If for any reason the selected agency or his authorized representative is not available and the work of recording measurements is suspended by the Competent Authority, the Competent Authority and LIFE Mission shall not entertain any claim from selected agency for any loss or damages on this account. If the selected agency or his authorized representative does not remain present at the time of such measurements after the selected agency or his authorized representative has been given a notice in writing three (3) days in advance or fails to countersign or to record objection within a week from the date of the measurement, then such measurements recorded in his absence by the Competent Authority or his representative shall be deemed to be accepted by the selected agency. The selected agency shall, without extra charge, provide all assistance with every appliance, labour and other things necessary for measurements and recording levels. Except where any general or detailed description of the work expressly shows to the contrary, measurements shall be taken in accordance with the procedure set forth in the CPWD specifications notwithstanding any provision in the relevant standard method of measurement or any general or local custom. In the case of items which are not covered by CPWD specifications, measurements shall be taken in accordance with the relevant standard method of measurement issued by the Bureau of Indian Standards (BIS) and if for any item no such standard is available, then a mutually agreed method shall be followed.

The selected agency shall give, not less than seven days' notice to the Competent Authority or his authorized representative in charge of the work, before covering up or otherwise placing beyond the reach of measurement any work in order that the same may be measured and correct dimensions thereof be taken before the same is covered up or placed beyond the reach of measurement and shall not cover up and place beyond reach of measurement any work without consent in writing of the Competent Authority or his authorized representative in charge of the work who shall within the aforesaid period of seven days inspect the work, and if any work shall be covered up or placed beyond the reach of measurements without such notice having been given or the Competent Authority's consent being obtained in writing, the same shall be uncovered at the selected agency's expense, or in default thereof no payment or allowance shall be made for such work or the materials with which the same was executed. Competent Authority or his authorized representative may cause either themselves or through another officer of the department to check the measurements recorded jointly or otherwise as aforesaid and all provisions stipulated herein above shall be applicable to such checking of measurements or levels.

It is also a term of this contract that recording of measurements of any item of work in the Measurement Book and/or its payment in the interim, on account or final bill shall not be considered as conclusive evidence as to the sufficiency of any work or material to which it relates nor shall it relieve the selected agency from liabilities from any over measurement or effects noticed till completion of the defects liability period.

6A Computerized Measurement Book

Competent Authority shall, except as otherwise provided, ascertain and determine by measurement the value of work done in accordance with the contract. All measurements of all items having financial value shall be entered by the selected agency and compiled in the

shape of the Computerized Measurement Book having pages of A-4 size as per the format of the department so that a complete record is obtained of all the items of works performed under the contract. All such measurements and levels recorded by the selected agency or his authorized representative from time to time, during the progress of the work, shall be got checked by the selected agency from the Competent Authority or his authorized representative as per interval or program fixed in consultation with Competent Authority or his authorized representative. After the necessary corrections made by the Competent Authority, the measurement sheets shall be returned to the selected agency for incorporating the corrections and for resubmission to the Competent Authority for the dated signatures by the Competent Authority and the selected agency or their representatives in token of their acceptance.

Whenever bill is due for payment, the selected agency would initially submit draft computerized measurement sheets and these measurements would be got checked/test checked from the Competent Authority and/or his authorized representative. The selected agency will, thereafter, incorporate such changes as may be done during these checks/test checks in his draft computerized measurements, and submit to the department a computerized Measurement Book, duly bound, and with its pages machine numbered. The Competent Authority and/or his authorized representative would thereafter check this MB, and record the necessary certificates for their checks/test checks.

The final, fair, computerized measurement book given by the selected agency, duly bound, with its pages machine numbered, should be 100% correct, and no cutting or over-writing in the measurements would thereafter be allowed. If at all any error is noticed, the selected agency

shall have to submit a fresh Computerized MB with its pages duly machine numbered and bound, after getting the earlier MB cancelled by the department. The selected agency shall submit two spare copies of such Computerized MB's for the purpose of reference and record by the various officers of the department.

The selected agency shall also submit to the department separately his computerized Abstract of Cost and the bill based on these measurements, duly bound, and its pages machine numbered along with two spare copies of the "bill. Thereafter, this bill will be processed by the Division Office and allotted a number as per the computerized record in the same way as done for the Measurement Book meant for measurements.

The selected agency shall, without extra charge, provide all assistance with every appliance, labour and other things necessary for checking of measurements/levels by the Competent Authority or his representative.

Except where any general or detailed description of the work expressly shows to the contrary, measurements shall be taken in accordance with the procedure set forth in the specifications notwithstanding any provision in the relevant standard method of measurement or any general or local custom. In the case of items which are not covered by specifications, measurements shall be taken in accordance with the relevant standard method of measurement issued by the Bureau of Indian Standards (BIS) and if for any item no such standard is available then a mutually agreed method shall be followed.

The selected agency shall give not less than seven days' notice to the Competent Authority or his authorized representative in charge of the work before covering up or otherwise placing beyond the reach of checking and/or test checking the measurement of any work in order that the same may be checked and/or test checked and correct dimensions thereof be taken before the same is covered up or placed beyond the reach of checking and/or test checking measurement and shall not cover up and place beyond reach of measurement any work without consent in writing of the Competent Authority or his authorized representative in charge of the work who shall within the aforesaid period of seven days inspect the work, and if any work shall be covered up or placed beyond the reach of checking and/or test checking measurements without such notice having been given or the Competent Authority's consent being obtained in writing the same shall be uncovered at the selected agency's expense, or in default thereof no payment or allowance shall be made for such work or the materials with which the same was executed.

Competent Authority or his authorized representative may cause either themselves or through another officer of the department to check the measurements recorded by selected agency and all provisions stipulated herein above shall be applicable to such checking of measurements or levels.

It is also a term of this contract that checking and/or test checking the measurements of any item of work in the Measurement Book and/or its payment in the interim, on account of final bill shall not be considered as conclusive evidence as to the sufficiency of any work or material to which it relates nor shall it relieve the selected agency from liabilities from any over measurement or defects noticed till completion of the defects liability period.

7.0 Payment on Intermediate Certificate to be regarded as advances

The interim or running account bills shall be submitted by the selected agency for the work executed on the basis of such recorded measurements on the format of the Mission in triplicate on or before the date of every month fixed for the same by the Competent Authority. The selected agency shall not be entitled to be paid any such interim

payment if the gross work done together with net payment/ adjustment of advances for material collected, if any, since the last such payment is less than the amount specified in memorandum, in which case the interim bill shall be prepared on the appointed date of the month after the requisite progress is achieved. Competent Authority shall arrange to have the bill verified by taking or causing to be taken, where necessary, the requisite measurements of the work. In the event of the failure of the selected agency to submit the bills, no claims whatsoever due to delays on payment including that of interest shall be payable to the selected agency. Payment on account of amount admissible shall be made by the Competent Authority certifying the sum to which the selected agency is considered entitled by way of interim payment at such rates as decided by the Competent Authority.

All such interim payments shall be regarded as payment by way of advances against final payment only and shall not preclude the requiring of bad, unsound and imperfect or unskilled work to be rejected, removed, taken away and reconstructed or re-erected. Any certificate given by the Competent Authority relating to the work done or materials delivered forming part of such payment, may be modified or

corrected by any subsequent such certificate(s) or by the final certificate and shall not by itself be conclusive evidence that any work or materials to which it relates is/are in accordance with the contract and specifications. Any such interim payment, or any part thereof shall not in any respect conclude, determine or affect in any way powers of the Competent Authority under the contract or any of such payments be treated as final settlement and adjustment of accounts or in any way vary or affect the contract.

Pending consideration of extension of date of completion, interim payments shall continue to be made as herein provided without prejudice to the right of the department to take action under the terms of this contract for delay in the completion of work, if the extension of date of completion is not granted by the competent authority.

The Competent Authority in his sole discretion on the basis of a certificate from authorized officer by LIFE Mission to the effect that the work has been completed up to the level in question make interim advance payments without detailed measurements for work done (other than foundations, items to be covered under finishing items) up to lintel level (including sunshade etc.) and slab level, for each floor working out at 75% of the assessed value. The advance payments so allowed shall be adjusted in the subsequent interim bill to be submitted by the selected agency within 10 days of the interim payment. In case of delay in submission of bill by the selected agency a simple interest @ 10% per annum shall be paid to the Government from the date of expiry of prescribed time limit which will be compounded on yearly basis.

8.0 Completion Certificate and Completion Plans

Within ten days of the completion of the work, the selected agency shall give notice of such completion to the Competent Authority and within thirty days of the receipt of such notice, the Competent Authority shall inspect the work and if there is no defect in the work, shall furnish the selected agency with a final certificate of completion, otherwise a provisional certificate of physical completion indicating defects (a) To be rectified by the selected agency and/or (b) For which payment will be made at reduced rates, shall be issued. But no final certificate of completion shall be issued, nor shall the work be considered to be complete until the selected agency shall have removed from the premises on which the work shall be executed all scaffolding, surplus materials, rubbish and all huts and sanitary arrangements required for his/their work people on the site in connection with the execution of the works as shall have been erected or constructed by the selected agency(s) and cleaned off the dirt from all wood work, doors, windows, walls, floor or other parts of the building, in, upon, or about which the work is to be executed or of which he may have had possession for the purpose of the execution; thereof, and not until the work shall have been measured by the Competent Authority. If the selected agency shall fail to comply with the requirements of this Clause as to removal of scaffolding, surplus materials and rubbish and all huts and sanitary arrangements as aforesaid and cleaning off dirt on or before the date fixed for the completion of work, the Competent Authority may at the expense of the selected agency remove such scaffolding, surplus materials and rubbish etc., and dispose of the same as he thinks fit and clean off such dirt as aforesaid, and the selected agency shall have no claim in respect of scaffolding or surplus materials as aforesaid except for any sum actually realized by the sale thereof.

8A Completion Plans to be submitted by the selected agency

The selected agency shall submit completion plan as required vide CPWD General Specifications for Electrical works (Part-I internal) 2013 and (Part-II External) 1994 as amended up to date as applicable within thirty days of the completion of the work.

In case, the selected agency fails to submit the completion plan as aforesaid, he shall be liable to pay a sum of 0.1 % of Bided Value. The selected agency shall submit completion plan for Internal and External Civil, Electrical and Mechanical services within thirty days of the completion of the work, provided that the service plans having been issued for execution by the Competent Authority, unless the selected agency, by virtue of any other provision in the contract, is required to prepare such plans.

9.0 Payment of Final Bill

The final bill shall be submitted by the selected agency in the same manner as specified in interim bills within three months of physical completion of the work or within one month of the date of the final certificate of completion furnished by the Competent Authority whichever is earlier. No further claims shall be made by the selected agency after submission of the final bill and these shall be deemed to have been waived and extinguished. Payments of those items of the bill in respect of which there is no dispute and of items in dispute, for quantities and rates as approved by Competent Authority, will, as far as possible be made within six months, the period being reckoned from the date of receipt of the bill by the Competent Authority, complete with account of materials issued by the Department and dismantled materials.

9A Payment of Selected agency's Bills to Banks

Payments payable to selected agency may, if so desired by him, be made to agency's bank account.

10. Materials to be provided by the selected agency

The selected agency shall, at his own expense, provide all materials, required for the works other than those which are stipulated to be supplied by the Government.

The selected agency shall, at his own expense and without delay, supply to the Competent Authority samples of materials to be used on the work and shall get these approved in advance. Any breach of this condition by the selected agency would render him liable to be removed from the approved list of selected agency's of this Department. If however, the selected agency is registered in any other department; he shall be debarred from bidding in LIFE Mission for any breach of this condition.

NOTE: By the term "near relatives" is meant wife, husband, parents and grandparents, children and grand children, brothers and sisters, uncles, aunts and cousins and their corresponding in-laws.

35. Compensation during war like situations

The work (whether fully constructed or not) and all materials, machines, tools and plants, scaffolding, temporary buildings and other things connected therewith shall be at the risk of the selected agency until the work has been delivered to the Competent Authority and a certificate from him to that effect obtained. In the event of the work or any materials properly brought to the site for incorporation in the work being damaged or destroyed in consequence of hostilities or warlike operation, the selected agency shall when ordered (in writing) by the Competent Authority to remove any debris from the site, collect and properly

stack or remove in store all serviceable materials salvaged from the damaged work and shall be paid at the contract rates in accordance with the provision of this agreement for the work of clearing the site of debris, stacking or removal of serviceable material and for reconstruction of all works ordered by the Competent Authority, such payments being in addition to compensation upto the value of the work originally executed before being damaged or destroyed and not paid for. In case of works damaged or destroyed, but not already measured and paid for, the compensation shall be assessed by the Divisional Officer upto Rs.5,000/- and by the Superintending Engineer concerned for a higher amount. The selected agency shall be paid for the damages/destruction suffered and for restoring the material at the rate based on analysis of rates bided for in accordance with the provision of the contract. The certificate of the Competent Authority regarding the quality and quantity of materials and the purpose for which they were collected shall be final and binding on all parties to this contract.

Provided always that no compensation shall be payable for any loss in consequence of hostilities or warlike operations (a) unless the selected agency had taken all such precautions against air raid as are deemed necessary by the A.R.P. Officers or the Competent Authority (b) for any material etc. not on the site of the work or for any tools, plant, machinery, scaffolding, temporary building and other things not intended for the work.

In the event of the selected agency having to carry out reconstruction as aforesaid, he shall be allowed such extension of time for its completion as is considered reasonable by the Authorized Officer.

36. Apprentices Act provisions to be complied with

The selected agency shall comply with the provisions of the Apprentices Act, 1961 and the rules and orders issued there under from time to time. If he fails to do so, his failure will be a breach of the contract and the Authorized Officer may, in his discretion, cancel the contract. The selected agency shall also be liable for any pecuniary liability arising on account of any violation by him of the provisions of the said Act.

37. Release of Security deposit after labour clearance

Release of Security Deposit of the work shall not be refunded till the selected agency produces a clearance certificate from the Labour Officer. As soon as the work is virtually complete, the selected agency shall apply for the clearance certificate to the Labour Officer under intimation to the Competent Authority. The Competent Authority, on

receipt of the said communication, shall write to the Labour Officer to intimate if any complaint is pending against the selected agency in respect of the work. If no complaint is pending, on record till after 3 months after completion of the work and/or no communication

is received from the Labour Officer to this effect till six months after the date of completion, it will be deemed to have received the clearance certificate and the Security Deposit will be released if otherwise due.

ESTABLISHING SITE LABORATORY AND TESTING OF MATERIALS
(as per Proposed Technology)

Equipments for conducting necessary tests shall be provided and installed at site in the well-furnished site laboratory by the agency at its own cost to establish that the work is being done as per contract specifications and standards. It is also suggested that site laboratory need to be kept at Standard Atmospheric Temperature and humidity.

A SUGGESTIVE LIST OF PLANT AND EQUIPMENT AT SITE

(As per Proposed Technology)- to be provided by the Selected agency The plant and equipment as required for the technology are to be provided by selected agency here. The space for setting up such onsite facilities shall be provided by State/ ULB/ DA for production of components/ products as applicable.

ANNEXURE-VIII

Minimum Requirement of technical Representative at Site

Requirement of Technical Representative(s) and Recovery Rates

Requirement of Technical Staff		Minimum Experience (Years)	Designation of Technical Staff	Rate of recovery if provision of clause 63(i) not fulfilled
Qualification	Strength			
1	Graduate Engineer (Civil)	1 No. for Region	15 (and having experience of one similar nature of work)	Project Manager Rs.75,000/- per month
2	Graduate Engineer (Civil) (Billing and Quality Control)	1 No. for Region	5 (and having experience of one similar nature of work)	Deputy Project Manager Rs.50,000/- per month
	Graduate (Electrical)Engineer	1 No. for Region	3 (and having experience of one similar nature of work)	Project Manager Rs.30,000/- per month
3	Graduate Engineer / Diploma Engineer (Civil)	1 No. for each project site	2/5 (and having experience of one similar nature of work)	Project / Site Engineer Rs.30,000/- per month

1. Assistant Engineers retired from Government services, who are holding Diploma will be treated at par with graduate Engineers. Diploma holder with minimum 10-years relevant experience with a reputed construction company can be treated at par with graduate Engineers for such deployment subject to the condition that such Diploma holders should not exceed 50% of requirement of degree engineers.
2. The above given strength shall be required to be deployed as and when necessity arises at site or so directed by Competent Authority.
3. The Selected agency shall submit a certificate of employment of the technical representative(s) along with every account bill/final bill and shall produce evidence of regular physical availability of such engineers on the above project if at any times so required by the Competent Authority.

SECTION-A

General Conditions of Work & Planning and Designing

1. Use of LGSF-PEB

- 1.1 The agency shall use LGSF-PEB technology. The Technology proposed should have sufficient credentials and authentic performance certification for its soundness by Government Institutes/Organisations.
- 1.2 [DELETED]
- 1.3 The agency shall provide detailed specifications and execution methodology to be adopted for the execution of the work. The agency shall support the proposal along with the details where LGSF-PEB technology has been successfully used in the prescribed proforma given in this bid. The agency shall make their own sufficient arrangements for visit to the LIFE mission sites at own expense.
- 1.4 The agency shall be responsible for the performance of the LGSF-PEB technology used and buildings constructed by using this. If agency fails to complete the work with the proposed technology then agency shall be liable to complete the work by using other technology/s as suggested by Competent Authority. The cost incurred in doing so shall be borne by the agency completely.
- 1.5 The LIFE Mission shall engage an “Independent Agency” for third party quality assurance at their own cost. This Independent Agency shall be a Government Institute /Organization/Central PSU.
- 1.6 The agency shall engage professionals with experience of proposed technology as per list mentioned in ANNEXURE-VIII.
- 1.7 All necessary measures like thermal comfort, fire-fighting provisions, natural light and ventilation, etc. shall be taken by the agency to provide as per NBC 2016 and as defined in Scope of work earlier in the RFP document.
- 1.8 The necessary suggestions if any, given by the Competent Authority for carrying out the construction work shall be incorporated by the agency for which nothing extra shall be payable.
- 1.9 The agency shall submit the list of laboratories equipments for test and locations of the same along with the proposal of technology. The decision of Competent Authority shall be final in this matter.
- 1.9 The agency shall provide the list and numbers of T&P/ equipments etc. likely to be used for completing the work. The agency shall engage the same during the execution.

2.0 Scope of Work

- 2.1 The work shall be executed in accordance with the site-specific layout plan (same are enclosed in RFP), revisions if necessary to architectural plan to make it conducive to prefab, structural and services drawings on EPC basis and finally handed over to LIFE Mission in fit conditions ready for occupation.
- 2.2 The land is free from encroachment and all encumbrances and there is no hindrance to execute the work. The agency shall fix a permanent bench mark at the site of work. All necessary approvals will be provided by the LIFE Mission on request of selected agency. Plinth level shall be as per CPWD norms however, it should be above existing road level. The general ground level of the whole campus shall be as per CPWD norms above the adjoining external road level. The data provided in this RFP are indicative and for general guidelines. Changes, if any, would not affect the agreed rates and no claim on this account shall be entertained.
- 2.3 Scope of the work shall include but not limited to the following:
 - 2.3.1 To carry out survey of the site handed over for execution of the project and shall verify the site dimensions as per the site plan provided with RFP or made available by Competent Authority.
 - 2.3.2 The agency can make minor revisions to the architectural drawings, layout plan to make it conducive for prefabricated construction. The agency shall execute the related infrastructure facilities as per prevailing local building bye-laws and development control norms in the area concerned. The agency shall prepare all drawings and layouts complete with structural design and working drawings with structural design vetted and approved from competent institutions like IIT/NIT.
 - 2.3.3 The agency should incorporate sustainable habitat and environment friendly , energy efficient elements in their general design.
- 2.4 Additional Detailed Soil investigation if found necessary should be conducted by the agency as per the relevant BIS code/NBC 2016 for determining type of foundation and its design from the consultant approved by Competent Authority.
- 2.5 Allowable safe bearing capacity for structural design shall be adopted after due approval of LIFE Mission.
- 2.6 To prepare complete structural design drawings for foundations, superstructure, services, and for other structures to be provided/constructed within works area, as per the provision contained in IS Codes/NBC2016, taking into consideration the protection against seismic/ wind forces required for disaster resistance structures. The structural drawings shall be got approved from Competent Authority and to facilitate it, LIFE Mission may engage consultant for examination of design and advising Competent Authority. After approval of the structural drawings by Competent Authority, if any modification in design/drawing is needed, as per site conditions, the agency shall do/re-do without any extra cost. The decision of the Competent Authority shall be final and binding. No claim whatsoever will be entertained on this account.
- 2.7 Planning, designing and execution of all internal services like internal sanitary, water supply, drainage system etc. complete for the buildings planned including all its fittings, fixtures, testing etc.

- 2.8 Planning, designing and execution of all external services like water supply, rain water harvesting systems, system for recycling of waste water, position of tube wells for horticulture, sewerage, drainage system, roads, paths and all connected sub-structures and superstructures within the premises, as per bye-laws and norms of the local bodies including making connections with the peripheral services after getting the services design approved from the local bodies.
- 2.9 Planning, designing and construction/installation of underground reservoirs, pump houses for water supply, for firefighting tank including installing of pumps, standby pumps as per approved drawings/specifications or as directed by Competent Authority.
- 2.10 Planning, designing & installation of waste water recycle system, including all equipments etc. shall be in the scope of the agency. The decision of Competent Authority shall be final.
- 2.11 Planning, designing and execution of rain water harvesting system for recharging the sub-soil water including laying of pipe lines and construction of substructure/superstructures. The designs, system shall be adhering to minimum norms define for intensity of rainfall in area .
- 2.12 Preparation of landscaping plan including parks, planters and other details etc. for the horticulture works and execution of same including waste water management system, construction of pump houses and installation of pumps therein etc. complete will be responsibility of selected agency. Development of parks, construction of its boundary wall, providing MS railings (including painting), wicket gates, water hydrants, the grassing, creepers and planting trees etc. shall be completed as per the specification and drawing approved by the Competent Authority.
- 2.13 Complete leveling/dressing including filling of earth, its supply, disposal of surplus earth is to be completed as directed by the Competent Authority.
- 2.14 Planning, designing and construction of boundary walls, MS gates, Wicket gates, dustbins, sign boards, guide maps, location boards, direction boards, Numbering of houses etc. all complete as per the drawing approved and direction of Competent Authority.
- 2.15 Setting up a testing laboratory at site equipped with the apparatus (As per the List of the laboratory equipment given in ANNEXURE-VII of with this bid document) needed for day to day testing of construction materials during construction period as directed by the Competent Authority.

- 3.10.1 External Bulk services with schematic planning and design like water supply, sewerage system, storm water drains, boundary walls, gates, underground parking, underground water tanks, rain water harvesting, STP, roads, paths, horticulture, street furniture, paths, differently able person friendly corridors, signage's, Landscape as per green area norms.
- 3.10.2 Schematic planning and designing of Internal Electrification, fire-fighting system, Lifts, Electric Sub Station building with all equipments and DG Sets, external

lighting, solar power generation and any other essential services/ requirement of the Competent Authority and also required for satisfactory completion of project. The Planning and design should conform to the relevant NBC 2016 and local building bye-laws as applicable.

3.11 Presentations and Models

- 3.11.1 Preparation of Model(s) to suitable scale decided by Competent Authority.
- 3.11.2 Preparation of 3D views and blow ups of typical and critical areas and walk through

3.12 Approval from Local Authorities

- 3.12.1 The statutory approval to commence construction shall be provided by LIFE mission.
- 3.12.2 The agency shall prepare drawings and if necessary get necessary statutory approval of 'Completion Plan' after completion of construction

4. Project Management

- 4.1 The Agency shall prepare the phase wise (monthly) resource chart(materials, manpower and machinery) based on the project execution schedule as mentioned in contract conditions.
- 4.2 The Agency shall submit the photographs & videos of progress of work on fortnightly basis to make it possible to create a short film of the entire execution of the work to be kept in archive.
- 4.3 Agency shall submit a detailed monthly progress & program report to the Competent Authority.
- 4.4 The Agency will make it possible to be represented by a senior level executive who have sufficient financial powers to take decisions required for completing the project in time.
- 4.5 The agency shall stick to the construction schedule, if there is any hindrance or delay due to any reason the same shall be mitigated through engaging extra manpower, material and machinery.
- 4.6 The Agency shall submit every month along with "Progress-Report" the details of "Funds-Requirements" for the next month.

CONTRACT COORDINATION PROCEDURES, COORDINATION MEETINGS AND PROGRESS REPORTING

The agency shall prepare and finalize in consultation with LIFE Mission, a detailed contract coordination procedure within 5 days from the date of issue of Letter of Award for the purpose of execution of the contract. The agency shall have to attend all the meetings at any place in Kerala at his own cost with LIFE Mission or consultants of LIFE Mission during the period of the contract, as and when required and fully cooperate with such personal and agencies involved during these discussions.

- a) **A Project Monitoring Group (PMG)** will be set up at LIFE Mission to oversee the entire progress of construction of LIFE Towers at Three locations.
- b) The PMG shall work out suitable strategy for routine supervision of the projects as felt necessary.
- c) The PMG shall meet at least once in a month and will report periodic progress of the project to LIFE Mission till the handing over of the project to State Government.

Being LIFE Towers, these LIFE Towers will also be evaluated and documented by reputed technical institutions. These studies will be undertaken in consultation with LIFE Mission and cost of such

studies will be borne by LIFE Mission. The agency will facilitate any visits by such Technical Institutes and provide necessary data.

SECTION-B

Conditions & Specifications of Civil and E&M Works

1.0 General Conditions for Civil Works

- 1.1 The work in general shall be carried out in accordance with the CPWD Specifications (corrected up to the last date of submission/uploading of bid) hereinafter referred as CPWD Specifications.
- 1.2 Agency(s) shall provide permanent bench marks, flag tops and other reference points for the proper execution of work and these shall be preserved till the end of the work. All such reference points shall be in relation to the levels and locations, given in the Architectural and plumbing drawings. On completion of work, the Agency(s) shall submit four prints of “as built” drawings to the Competent Authority.
- 1.3 The agency (s) should engage approved, licensed plumbers for the work and get the materials (fixtures/fittings) tested, by the municipal Body/Corporation authorities wherever required at his own cost. The agency(s) shall submit for the approval of the Competent Authority, the name of the plumbing agency proposed to be engaged by him.
- 1.4 The agency shall give performance test of the entire installation(s) as per the specifications in the presence of the Competent Authority or his authorized representative before the work is finally accepted and nothing extra what-so-ever shall be payable to the agency for the test.
- 1.5 The work shall be carried out in accordance with the Architectural drawings and structural drawings approved by the Competent Authority.
- 1.6 Before commencement of any item of work the agency shall correlate all the relevant architectural and structural drawings, and specifications etc. and satisfy himself that the information available is complete and unambiguous. The agency alone shall be responsible for any loss or damage occurring by the commencement of work based on any erroneous and or incomplete information and no claim whatsoever shall be entertained on this account.
- 1.7 The work of services will be executed simultaneously.
- 1.8 If the work is carried out in more than one shift or during night, no claim on this account shall be entertained. The agency must take permission from the police authorities etc. if required for work during night hours, no claim/hindrance on this account shall be considered if work is not allowed during night time.
- 1.9 The agency shall be responsible for the watch and ward/guard of the buildings safety, fittings and fixtures provided by him against pilferage and breakage during the period of installations and thereafter till the building is physically handed over to the department. No extra payment

shall be made on this account.

- 1.10 Sample of building materials, fittings and other articles required for execution of work shall be got approved from the Competent Authority before use in the work. The quality of samples brought by the agency shall be judged by standards laid down in the relevant CPWD/BIS specifications. All materials and articles brought by the agency to the site for use shall conform to the samples approved by the Competent Authority which shall be preserved till the completion of the work.
- 1.11 BIS marked materials except otherwise specified shall be subjected to quality test at the discretion of the Competent Authority besides testing of other materials as per the specifications described for the item/material. Wherever BIS marked materials are brought to the site of work, the agency shall, if required, by the Competent Authority, furnish manufacturer's test certificate or test certificate from approved testing laboratory to establish that the material/procured by the agency for incorporation in the work satisfies the provisions of specifications/BIS codes relevant to the material and/or the work done.
- 1.12 The agency shall procure the required materials in advance so that there is sufficient time to testing of the materials and clearance of the same before use in the work. The agency shall provide at his own cost suitable weighing and measuring arrangements at site for checking the weight/dimensions as may be necessary for execution of work.
- 1.13 Regarding testing of civil & electrical materials, the testing of materials shall be conducted in Govt. Laboratory/Govt. colleges/IITs/NITs or from the laboratory approved by Competent Authority. The charges of testing of materials in approved laboratory shall be borne by the agency.
- 1.14 Agency shall submit minimum "Quality Assurance" plan within 15 days after award of work which shall be consisting of:
 - 1.14.1 Required tests and frequency of components/ products of proposed technology shall be as per national/ international standards as applicable for proposed technology.
 - 1.14.2 Lot-size, number of required tests and frequency of testing. While deciding these criteria CPWD specifications & provisions of BIS Code and standard practices may be referred. If provisions for such tests/ standards not available in CPWD/ BIS/ NBC codes then codal provisions of ASTM/ British standards will be followed. Volume of work, practical difficulties and site conditions etc. may also be kept in view. The lot size, number of tests and frequencies of testing can be altered or modified by the Competent Authority from the prescribed limits.
 - 1.14.3 It should clearly indicate the machinery and other Tool & plants required to be deployed at site by the agency. Entire machinery and T&P may not be required at the start of work, therefore, a proper time schedule by which each machinery and T&P is to be brought at site should also be indicated.
 - 1.14.4 Receipt of Material, testing of the same & maintenance of Register of Tests.
 - 1.14.5 All the registers of tests carried out at construction site or in outside laboratories shall be maintained by the agency, which may be inspected by Competent Authority or his/her designee at any point of time.
 - 1.14.6 The agency shall allow access to Third Party Quality Assurance Agency (TPQAA) engaged by Competent Authority to have a control on quality and methodology of execution. At least 25% of samples of materials including cement concrete cubes shall be taken jointly by Agency and TPQAA/Competent Authority or his authorized

representative. All arrangements for transporting and getting them tested shall be made by the agency.

1.14.7. All the test in field lab setup at construction site shall be carried out by the Quality control team to be engaged by the agency which can be witnessed by Competent Authority or his/her designee. A daily report of Tests to be conducted on a day shall be submitted to Competent Authority or his/her designee.

1.14.8. All the entries in the registers will be made by the designated Engineering Staff of the agency.

1.14.9. Agency shall be responsible for safe custody of all the test registers.

1.14.10. Submission of copy of all test registers, material at site register and hindrance register along with each alternate running account bill and final bill shall be mandatory.

1.15 Method Statement

1.15.1 The agency shall submit a 'Methods statement' for each important activity for the approval of the Competent Authority within 5 days after the award of work to him. The 'Methods statement' is a statement by which the construction procedures for any activity of construction are formulated and stated in chronological order. The 'Methods statement', should have a description of the item with elaborate procedures in steps to implement the same, the specifications of the materials involved, their testing and acceptance criteria, equipment to be used, Precautions to be taken, steps of measurement, etc.

1.16 Check-list for Execution of work

1.16.1 As and when any important item is taken up for execution, the agency shall submit the specifications and develop a checklist and other relevant details. This sample checklist should be got approved from the Competent Authority and should be used at site. This check list should be shown to the Competent Authority or his/her designee during inspection. This procedure is not restricted to the proposed technology and its components but also to be followed for all hidden items, CC/RCC work, Steel-reinforcement, shuttering, cast-in-situ mosaic flooring, doors & windows, plumbing, including water supply pipe lines, roof treatment, earth filling etc.

1.16.2 The agency shall be responsible for all documenting the total sequence of this project by way of photography, slides, audio- video recording etc. nothing extra shall be payable to the agency on this account.

1.16.3 General

The agency shall acquaint himself with the proposed site of work, its approach roads, working space available before quoting his rates.

i. No Entry/exit/roads other than specified by the Competent Authority for purpose of construction activities will be allowed to be used for construction activity purposes or movement of trucks/lorries/load-carriers and nothing extra/delay whatsoever will be accounted for on this part.

ii. No payment shall be made for any damage caused by rain, snowfall, flood or any other natural calamity, whatsoever during the execution of the work. The agency shall be fully responsible for any damage to

the govt. property and work for which the payment has been advanced to him under the contract and he shall make good the same at his risk and cost. The agency shall be

fully responsible for safety and security of his material, T&P, machinery brought to the site by him.

- iii. The agency shall ensure that no construction leachate (e.g. cement slurry etc.), is allowed to percolate into the ground. Adequate precautions are to be taken to safeguard against this including, reduction of wasteful curing processes, collection, basic filtering and reuse. The agency shall follow requisite measures for collecting drainage water run-off from construction areas and material storage sites and diverting water flow away from such polluted areas. Temporary drainage channels, perimeter dike/swale, etc. shall be constructed to carry the pollutant-laden water directly to the treatment device or facility (municipal sewer line).
- iv. The agency shall comply with the safety procedures, norms and guidelines (as applicable) as outlined in the document Part 7 Constructional Practices and Safety-2016, National Building code of India and Bureau of Indian Standards. A copy of all pertinent regulations and notices concerning accidents, injury and first-aid shall be prominently exhibited at the work site. Depending upon the scope & nature of work, a person qualified in first-aid shall be available at work site to render and direct first-aid to casualties. A telephone may be provided to first-aid assistant with telephone numbers of the hospitals displayed. Complete reports of all accidents and action taken thereon shall be forwarded to the competent authorities

1.16.4 The agency shall ensure the following activities for construction workers safety, among other measures:

- i. Guarding all parts of dangerous machinery.
- ii. Precautionary signs for working on machinery.
- iii. Maintaining hoists and lifts, lifting machines, chains, ropes, and other lifting tackles in good condition during the defect liability period.
- iv. Ensuring that walking surfaces or boards at height are of sound construction and are provided with safety rails or belts.
- v. Provide protective equipment; helmets etc.
- vi. Provide measures to prevent fires. Fire extinguishers and buckets of sand to be provided in the fire-prone area and elsewhere.
- vii. Provide sufficient and suitable light for working during night time.

1.16.5 The agency shall provide for adequate number of garbage bins around the construction site and the workers facilities and will be responsible for the proper utilization of these bins for any solid waste generated during the construction. The agency shall ensure that the site and the workers facilities are kept litter free. Separate bins should be provided for plastic, glass, metal, biological and paper waste and labeled in both Hindi and English with suitable symbols.

1.17 DELETED

1.18 Miscellaneous

1.18.1 The sample flat with proposed technology shall be made in the proposed Life Mission Tower within 60 days after commencement of the project.

1.18.2 Agency shall arrange water for construction from its own sources within the ambit of laws and guidelines issued by the competent authority in this regard. Effort should also be made by selected agency for using recycled water for construction.

2.0 Specifications for Civil Works

2.1 The broad specifications of LGSF-PEB to be used for construction of LIFE Towers are mentioned in **Section F** and need to be followed. As regards procurement and use of cement, steel reinforcement, design mix concrete from batching plant/RMC Plant, etc. and any other required material shall be as per applicable CPWD specifications, relevant Indian Standards and this RFP.

2.2 Waterproofing

2.2.1 The work shall be got executed from the specialized agency as approved by the Competent Authority.

2.2.2 Agency shall also submit the names of water proofing specialist along with information about their technical capabilities and list of similar works executed by the specialized agency in the past for the approval of Competent Authority within 15 days from the date of award of work who have executed satisfactorily a minimum of three works of value not less than 40% of total work of water proofing to be executed each or two works of value not less than 60% of total work of water proofing to be executed each or one work of value not less than 80% of total work of water proofing to be executed in the last seven years.

2.2.3 Total quantity of the water proofing compound required shall be arranged only after obtaining the prior approval of the make by Competent Authority in writing. Materials shall be kept under double lock and key and proper account of the water proofing compound used in the work shall be maintained. It shall be ensured that the consumption of the compound is as per specified requirements.

2.2.4 The finished surface after water proofing treatment shall have adequate smooth slope as per the direction of the Competent Authority.

2.2.5 Before commencement of treatment on any surface, it shall be ensured that the outlet drain pipes / spouts have been fixed and the spout openings have been eased and rounded off properly for easy flow of water.

2.2.6 The approved specialized agency for the work of water proofing will have to execute a guarantee bond in prescribed Proforma enclosed at ANNEXURE-IX for removing any defects for at least 10 years. Guarantee bond shall be signed by both the specialized agencies as approved by the Competent Authority and the agency to meet their liability under the guarantee bond. However, the sole responsibility about the efficiency of water proofing treatment shall rest with the agency.

2.2.7 10% of the cost of water proofing work shall be retained as additional security deposit and the amount so withheld would be released after ten years from the date of completion of the entire work under the agreement. If the performance of the work done is found unsatisfactory and any defects noticed during the guarantee period, they shall be rectified by the agency within seven days of receipt of intimation of defects in the work. If the defects pointed out are not attended to within the specified period, the same will be got done from another agency at the risk and cost of the agency.

3. General Scope & Specifications of E&M works

3.1 Scope of work

- 3.1.1 Scope of work covers planning, designing, supply, installation, testing and commissioning of all E&M services such as IEL, Fire Fighting, Fire alarm, D.G. Sets, Lifts, Aviation Light required to be provided in the said scheme as per norms of various IS codes
/NBC2016/CPWD specifications/ECBC/CEA Regulations, various byelaws and norms of local bodies. The work shall be executed as per scope & specifications of E & M works given hereafter and given in respective head/part of the scheme sub-head. If any services required to make the building /scheme habitable is not covered in the scope of services same shall either be pointed out in pre- bid meeting else, it shall be presumed that the same shall be provided within the quoted cost and nothing extra shall be paid on this account.
- 3.1.2 The scope of works also covers the preparation of layout plans, drawings for E&M schemes and approval of the same from the respective local bodies/CFO etc. before the commencement of work. During execution, if the local bodies etc. require a modification, the same shall be executed without any extra cost. Finally, after execution, approvals/NOCs/clearances from local bodies etc. shall be the responsibility of successful agency for which nothing extra is payable in case any modification/ extra work is required. All statutory fees/charges required for obtaining clearances from CEA/Local Bodies shall be paid by the agency.

4. General

- 4.1 These additional terms & conditions are applicable to all the E&M works.
- 4.1.1 The Agency shall submit within 10days after award of work an undertaking from the Original Equipment Manufacturers (OEMs) for specialized E&M works regarding:
- A) The OEMs shall unconditionally support the lowest agency technically throughout the execution of contract as well as for maintenance/comprehensive maintenance contract for the useful life of the system, and
 - B) OEMs shall provide all the spares required for healthy functioning of the equipment for at least seven years or useful life of the system whichever is later from the date of supply of equipment. For the above purpose, undertaking may be submitted by OEMs.
- 4.1.2 The agency must study specifications and conditions carefully. The work shall be executed in close coordination with the progress of building work.
- 4.1.3 The work shall be carried out as per CPWD specifications, if specifications are not available, IS codes shall be followed.
- 4.1.4 All equipment shall be delivered with (i) manufacturer's test certificate, (ii) manufacturer's technical catalogues, and installation / instruction (O&M) manuals.
- 4.1.5 Scaffolding & any other T&P required for execution of work shall be arranged by the agencies and nothing extra shall be payable on that account.
- 4.1.6 The layout plans/drawings/other documents pertaining to E&M services shall have to be submitted for evaluation & approval, within 45days of award of work.
- 4.1.7 Statutory fees/ payments to Govt. bodies required to be deposited for processing the case, shall be reimbursed by LIFE Mission on production of actual bills from the concerned department.

5.0 Inspection before Dispatch

All routine tests shall be conducted before dispatch of equipment. No equipment shall be dispatched from the manufacture's premises without such tests being conducted and test result recorded. These test certificates shall be given along with the supply of equipment. The Engineer In-Charge shall, if he so desires inspect and witness the pre-delivery tests. For this purpose, the agency shall give 10 days' notice. Agency shall arrange for inspection by the department. Department shall bear expenses of its officials for inspection as far as traveling, boarding and / lodging is concerned. However, waiver if any, for inspection shall be at the discretion of the department without any cost implication but ROUTINE TEST & TYPE TEST certificates shall have to be submitted for equipment.

Prior to dispatch, all equipment shall be adequately protected & insured for the whole period of transit, storage and erection against corrosion and incidental damages etc. from the effect of vermin, sunlight, rain, heat and humid climate.

6.0 Insurance

The agency shall include storage cum erection insurance including third party insurance right from the storage to commissioning of various equipment. All insurance which the agency is required to enter under the contract shall be affected with any authorized general insurance company and the agency shall produce the policies of insurance.

7.0 Remedy of failure to insure

If the agency fails to effect and keep in force the insurance referred to in the preceding sub-clause the department may affect and keep in force any such insurance and pay such premium as may be necessary for that purpose and from time to time deduct the amount, so paid by the department, from any money due or which may become due to bids or recover the same as debit from the agency's bill.

8.0 Quality of material and workmanship

All parts of the equipment shall be of such design, size and material to function satisfactorily under all rated conditions of operation. All components of the equipment shall have adequate factor of safety. The work of fabrication and assembly shall conform to sound engineering practice and based on "Fail Safe Design". The mechanical parts subject to wear and tear shall be easily replaceable type. The construction of the equipment shall be such as to facilitate effortless operation, inspection, maintenance and repairs. All connections and contacts shall be designed to minimize risk of accidental short circuits caused by animals, birds and vermin etc. All identical items and their component parts should be completely, interchangeable including spare parts.

9.0 Inspection and testing at site

9.1 The installation shall be subject to necessary inspection during every stage of erection, by the Competent Authority. The successful agency shall provide all facilities and assistance for the purpose.

9.2 The completed installation shall be inspected and tested by the Competent Authority in the manner as will be laid down by him, in consultation with the agency.

9.3 All instruments and facilities necessary for the tests shall be provided by the agency.

10.0 Completeness of work

- 10.1 The installations shall be completed in all respects and put in to operation even where certain details have not been mentioned/left out in these specifications. Any discrepancy may be brought out in pre-bid meeting.
- 10.2 All E&M services such as Internal Electrical installations, lifts, fire fighting system & Addressable fire alarm system shall be declared as completed after completion of trial run of 1 month.

11.0 Internal electric installation (IEI)

- 11.1 The work will be carried out as per proposed technology specifications for the internal electric installation. Where such specifications are not available, CPWD specifications shall be adopted.
- 11.2 FRLS PVC insulated Copper conductor wires will be used for points, circuit & sub-main wiring.
- 11.3 Agency shall execute the work as per scale of amenities given elsewhere in document after obtaining necessary approval of the layout for internal electrification of all houses, common areas and staircases from Competent Authority. The staircase lighting shall be in group control system.
- 11.4 Modular type switches, sockets and stepped type electronic fan regulators, bell push along with matching mounting boxes of same make shall be used.
- 11.5 TV outlet point wiring of each house shall be terminated in suitable size of G.I. box along with splitter at every floor. The interconnections of all splitter boxes fixed at all floors shall be done properly with
conduits to form proper distribution system with the prior approval of competent authority.
- 11.6 Suitable rain protection covers made of 16 SWG galvanized MS sheet wherever required shall be provided.
- 11.7 Meter Boards & Main Distribution Boards as per DISCOM specification/requirement shall also be provided by the agency. Dwelling units shall be provided with single phase 230 V supply.
- 11.8 A separate Meter Rooms for each block of houses is to be provided at suitable location in the housing block with the prior approval of layout by Competent Authority.
- 11.9 Separate shaft for each block of houses shall be provided for laying of Electrical, mechanical & fire services. HDPE/DWC pipes for taking L.T. cables up to meter boards in the meter rooms along with brick masonry chambers of suitable size shall be provided by the agency wherever required.
- 11.10 Laying of HDPE / DWC /Hume pipes for road crossing or in pucca portion
& CC path etc. for electric/street lighting cables complete with adequate number of cable chambers shall be provided by the agency.
- 11.11 After completing the work, necessary test results as envisaged in CPWD General Specifications Part-I (Internal)-2005&Indian Electricity Rules 2005, shall be recorded and submitted to LIFE Mission. The results shall be within the permissible limits. Test report forms duly signed by authorized person for obtaining electric connections (energy meters) from Power Distribution Company by the agency shall be given to the allottees.
- 11.12 Lightning arresters as per IS/IEC : 62305 as amended up to date shall also be provided by successful agency.

12. Installation of lift

- 12.1 Provision of lifts in the housing scheme will be kept as per National Building Code-2016/CPWD Specifications considering no of floors, height of the building and speed of elevators which shall be submitted to Competent Authority for approval before commencement of work.
- 12.2 Scope of work of the successful agency shall be inclusive of the following and shall be done by the agency at no extra cost.
- 12.2.1 Provision of proper ventilation in machine rooms, lift wells and water proof lift pits including lighting.
- 12.2.2 Electric supply to individual lift shall be given by two independent feeders (one working & other stand by) from main electrical panel through change over switch in the machine room
/ground floor panel room.
- 12.3 Agency shall furnish the following drawings and data to the Competent Authority in triplicate, for approval.
- 12.3.1 General arrangement drawing.
- 12.3.2 Detail of foundations for equipment, load data of various assembled equipment. Data will include breaking load on guides, reactions on buffers, reaction on support in machine room, lift well etc.
- 12.3.3 Dimensions for every unit and group of units for erection purpose, as required.
- 12.3.4 The correction/changes, if any, intimated by the Competent Authority shall be incorporated and three sets of such corrected drawing shall be furnished to the Competent Authority within 15 days from the date of approval of drawings. The work shall be executed in accordance with the approved drawings.
- 12.4 Inspection and Testing at Site:
- 12.4.1 The lift installation shall be subject to necessary inspection during every stage of erection, by the Competent Authority or his authorized representative. The bids shall provide all facilities and assistance for the purpose.
- 12.4.2 On completion of the installation, all adjustments as necessary shall be made for the satisfactory performance of the lifts. The completed installation shall be inspected and tested by the Competent Authority in the manner as will be laid down by him, in consultation with the agency.
- 12.5 Technical Specification
- The lift shall work on microprocessor based control system with self-diagnostic features, site programming to suit the changing need of the user. The lift shall be silent in operation & shall have smooth and controlled acceleration and de-acceleration with leveling accuracy of +5 mm.
- 12.6 Technical Particulars
- 12.6.1 Type of lift.
- 12.6.2 Rated Speed & Rated load shall be as per approval of Competent Authority.
- 12.6.3 Type of operation: Automatic group supervisory control with/without attendant.
- 12.6.4 Type of control: A.C. drive variable voltage variable Frequency with Microprocessor based group control system.
- 12.6.5 Type car doors: Centre opening stainless steel sliding door in the moon rock finish.

12.6.6 Door Operation: Automatic power operated Construction design & Stainless body with moon rock “honey comb finish” finishing of car body on 3 sides and plain finish on front side shall be given. The car shall be complete with PVC flooring & toe guard of adequate depth cabin fan light fittings with lamps and false ceiling. Stainless steel hand rails shall also be provided on 3 sides. Disabled friendly lift in

each lobby shall be suitable for handicapped persons. (For this purpose, the railing and controlling switch etc. shall be fixed at the appropriate height.

12.6.7 Type of signal system: All signal & operating fixtures shall be provided with stainless steel face plates.

12.6.7.1 Call registration indication in buttons of operating panel.

12.6.7.2 Digital car position indicator in car.

12.6.7.3 Digital car position indicator with up & down direction on all floors separately for each lift.

12.6.7.4 Luminous hall call buttons on all floors.

12.6.7.5 Maintenance free re-chargeable battery operated alarm bell & emergency light.

12.6.7.6 Fire man’s switch at ground floor for each group of passenger lift.

12.6.7.7 Overload warning with visual indication ‘OVER LOADED’ and audio beep of overloading

12.6.7.8 Voice announcement system having standard features.

12.6.8 Intercom system in each lift for communication between the passengers in the elevator & fire control room & machine room (press & speak type) with rechargeable maintenance free battery backup.

12.6.9 Elevator should be equipped with manual as well as automatic rescue devices.

12.6.10 Infra red beam type door safety device shall be provided for full height of door.

13.0 Fire fighting& Fire alarm system

Fire Protection System shall be designed and provided as per NBC 2016 with Amendments, Updated BIS Codes& Fire Bye Laws. NOC for the scheme from Local Fire Service Department shall be obtained by the agency.

14.0 DG set

14.1 DG Sets Installation

14.1.1 DG sets outdoor type with radiator cooled, as per CPWD Specifications for Electrical Works. DG Set shall be within an acoustic hood as per CPCB norms. Each DG Set shall be provided with its own day oil tank suitable for at least 10 hrs operations.

14.1.2 Standby Power Generation.

14.1.3 The capacity of DG set should be worked out with following consideration:

- i. Total connected Electrical Loads of Common Services viz Staircase light, Lifts, Drinking Water Pumping Sets, External Lighting, Sentry Posts, Mechanical Ventilation.
- ii. Power Factor – 0.80.
- iii. Provision for Future expansion / addition – 2% of the connected load
- iv. The diversity factor to be, as per the National Electric Code 2011 125or latest.
- v. Loading factor.

- vi. DG Sets shall be 400V, 3 Phase, 4 wire, 50Hz, 0.8 PF with acoustic enclosure.

14.2 DG Set Flue Stack

- 14.2.1 As per CPCB norms, flue pipes of DG Sets need to be taken above the roof top of the building, as per CPWD General Specifications for Electrical Works Part VII DG Set – 2013,
- 14.2.2 The flues shall be adequately thermally insulated and properly cladded so as to prevent heat transfer to the supporting walls and adjacent areas.
- 14.2.3 DG exhaust shaft shall be required for the purpose of installing flue pipes for taking them above roof top.
- 14.2.4 DG Set Start/ Stop & change over shall be fully automatic.
- 14.2.5 DG sets shall start automatically within 10-30 seconds in the event of a power failure and shall transfer power to emergency/ critical loads automatically.
- 14.2.6 DG Sets operation shall incorporate:
 - vii. Auto Start / Stop of DG Sets i.e. auto mains failure.
 - viii. Auto Transfer of Load

14.3 External / Landscape Lighting

- 14.3.1 Security Lights, Road Lighting, open area lighting shall be provided as per codal & functional requirements.
- 14.3.2 Pathways, Garden, Water Bodies & Landscape lighting shall be designed keeping in mind Architectural features/Aesthetic considerations.
- 14.3.3 As a general practice, following type of fixtures/poles shall be used as per CPWD specifications applicable.

Area / Space	Average Illumination Range in Lux	Type of Lamps / Fixtures
Boundary Wall, Road, Parking, Areas	30 – 50 - 100 Lux	LED Lamps Street light fixtures Mounted on 6 to 7m High Octagonal Powder Coated poles.
Pathways, Water & Landscape lighting	Garden, Bodies Aesthetical Consideration	Bollards with LED's / Other Luminaries, as per aesthetic Consideration

15.0 Approved makes

Apart from the proposed technology the following specification/brands names of materials to be used as listed wherever required. The efforts should be made by the agency to use indigenous products. The agency should also consider the availability of spares parts/components for maintenance purposes while proposing any brand/manufacturer. The materials of any other brand/manufacturer may be proposed for use by the agency in case the brands specified below are not available in the market and/or agency intends to use some other brand better than the brands mentioned in this list. The alternate brand can be used only after the approval of Competent Authority. The list of approved make for Civil Works is given below:

Sl. No	Materials	Approved make

GUARANTEE TO BE EXECUTED BY AGENCY FOR REMOVAL OF DEFECTS AFTER COMPLETION IN RESPECT OF WATER PROOFING WORKS

The agreement made this.....day of year two thousand andbetween

(Hereinafter called the Guarantor of the one part) and the PRESIDENT OF INDIA (Hereinafter called the Government of the other part).

WHEREAS THIS agreement is supplementary to a contract (Hereinafter called the contract) dated and made between the GUARANTOR

OF THE ONE PART AND the Government of the other part, whereby the agency inter-alia, undertook to render the building and structures in the said contract recited completely water and leak proof.

AND WHEREAS THE GUARANTOR agreed to give guarantee to the affect that the said work will remain water and leak proof for ten years from the date of giving of water proofing treatment.

NOW THE GUARANTOR hereby guarantee that water proofing treatment given by him will render the structures completely leak proof and the minimum life of such water proofing treatment shall be ten years to be reckoned from the date after the maintenance period prescribed in the contract.

Provided that the guarantor will not be responsible for leakage caused by earthquake or structural defects or misuse or alteration and for such purpose.

- a) Misuse of roof shall mean any operation which will damage proofing treatment, like chopping of firewood and things of the same nature which might cause damage to the proof.
- b) Alteration shall mean construction of an additional storey or a part of the roof or construction adjoining to existing roof whereby proofing treatment is removed in parts.
- c) The decision of the Competent Authority with regard to nature and cause of defects shall be final.

During this period of guarantee, the guarantor shall make good all defects and in case of any defect being found render the building water proof to the satisfaction of the Competent Authority at his cost and shall commence the work for such rectification within seven days from the date of issue of the notice from Competent Authority calling upon him to rectify the defects failing which the work shall be got done by the Department by some other agency at the Guarantors risk and cost. The decision of the Competent Authority as to the cost payable by the Guarantor shall be final and binding.

That if guarantor fails to execute the water proofing or commits breach there 133

under; then the guarantor will indemnify the Principal and his successors against all loss, damage, cost any default on the part of the GUARANTOR in performance and observance of this supplementary agreement. As to the amount of loss and/ or damage and/or cost incurred by the Government, the decision of the Competent Authority will be final and binding on the parties.

IN WITNESS WHEREOF these presents have been executed by the obligator
..... andBy..... For and on behalf of the
PRESIDENT OF INDIA on the day, month and year first above written.

Architectural Design Norms, Schedule of Finishes &

General Specifications

1.0 Minimum requirement of the building design for LIFE MISSION Single dwelling unit

Plinth area	500	Sqft	46.45	Sqm
Carpet area to plinth area ratio	Not less than 0.8			

Space to be ensured and its approximate minimum area

Multipurpose hall	12	Sqm
Bed room 2 numbers	7.5	Sqm
Kitchen	5	Sqm
Balcony (preferably on back side)	2	Sqm
Toilet	1.5	Sqm
Bathroom	1.5	Sqm

Design should permit maximum natural ventilation

Apartment complex in general

Minimum G+3 structure

Design should follow stipulations of KMBR/KPBR

Common areas covering stairs and corridors should be limited to 20% of total carpet area

Common facilities to be provided	1000	sqft per 50 DU
Office space(covering meeting/ recreation hall+ living space for admin officer)	400	Sqft
Space for crush and elderly day care	200+200	Sqft
Sick room	200	Sqft

Appropriate compound wall and gate may be provided

All ducts should be accessible from common areas without disturbing houses One of the stairs in each block should have minimum 2m width. Over all estimate should be limited to 10.5 lakh per DU

Note: Carpet area of the unit may increase as per the design proposed.

Requirements laid down in National Building Code-NBC 2016 with good aesthetics, proper ventilation to suit the climatic condition of the location with adequate storage space to be ensured.

1.1 Plinth Area

The following norms (variation +2%) shall be adopted for Residential Units:

S. No	Type	Unit Carpet Area	Staircase/ Circulation	Balcony	Utility area/Balcony
		Sqm	Sqm	Sqm	Sqm
1.	EWS	As per designs following NBC 2016 norms and guidelines of PMAY(U)			

2 Scale of Amenities (Minimum) :

Items No	Item	To be provided
1	Kitchen Cabinets	-
	i) Cooking Platform with hole for cylinder pipe	Yes
	ii) Stainless Steel AISI 304 (18/8) Kitchen sink as per IS 13983 with drain board	Yes
	iii) Built in cupboard below cooking platform as per architectural design.	No
2	Wardrobes	No
	i) Built in cupboard	In bed room up to ceiling height
3	Magic Eye (of SS grade 316) in front entry door	One
5	Set of Pegs SS grade 304	No
6	DELETED	
7	WC with seats in toilets	
	i) European-type floor mounted/wall-hung WC with seat, lid and low level flushing PVC cistern, water jet/health faucet. or Orissa pan WC with seat, lid and low level flushing PVC cistern.	In toilet, as approved
8	Wash Basin with CP Brass type Pillar Cock provided with quarter turns	One as per design, either outside of bath/toilet or inside bath

9	Tap (Kitchen, toilet,bath) CP Brass bib cock provided with quarter turns.	1 in Kitchen 1 in toilet 1 in Bath
10	Provision for shower	1 in Bath
11	MS Tower rail	One in Bath
	Soap rack/Niche as per architectural Design and Specifications	1 in toilet
14	Plumbing for water purifier and Geysers.	No

2.2 Scale of 1 in each Room Electrical Amenities (Minimum)

S. No	Description	Type / category of Accommodation
1	Power Points (15 amp 6 pins)	1 in Hall 1 in balcony Total 2

2	Plug Points (5 amp)	1 in each room 1 in Kitchen 2 in hall Total 5
3	Provisions for Bracket Lights (with normal fittings excluding lamp/bulb)	1 in each Room 1 in Kitchen 1 in Toilet and Bath 1 in washbasin 1 in Balcony Total 7
4	Provision for Ceiling Fans	1 in each bed rooms and living room Total 3
5	Call Bell Points	1 on Main Door
6	Provision for Exhaust Fans	1 in Kitchen

8	Geyser Point (with MCB connected outlet with wiring socket)	1 in bath
9	EDB/MCB Point (single phase)	1 at appropriate place
10	Cable TV Point	1 in living room
12	LED tube light fitting (excluding tube)	1 in each Room 1 in living room Total 2
13	LED Bulb fittings (excluding LED Bulb)	1 in Kitchen 1 in Bathroom 1 in Toilet 1 at Entrance Total 4
14	Modular Switches	Yes
15	Common areas of basement/stilt/residential towers	As per requirement of light intensity, fittings with lights (consumables) shall be fixed.

2.3 General Specifications

2.3.1 For Residential Units:

S.No.	DESCRIPTION	Residential houses
1.	Finishes	
	External Walls	It should be as per the requirement of proposed technology. However, External surface shall be made smooth with coarse putty before painting work
	Internal Walls & Ceiling	It should be as per the requirement of proposed technology. However, surface shall be made smooth with putty before painting work if required.
	Living Room	Low VOC Acrylic washable distemper
	All Bedrooms	Low VOC Acrylic washable distemper
	Kitchen	Low VOC Acrylic washable distemper
		DELETED
	Toilets/ Bath	Ceramic tiles on all walls upto 6 feet height in Bath and 3 feet height in Toilet
	External Finishes	As per the architectural design
Ceiling	Low VOC Acrylic washable distemper	
2.	Flooring	
	Living room	Ceramic tiles (300mmx300mm) laid as per CPWD specifications.
	Bedroom	Ceramic tiles (300mmx300mm) laid as per CPWD specifications.
	kitchen	Ceramic tiles (300mmx300mm) laid as per CPWD specifications.
	Toilets/ Bath	Anti-skid ceramic tiles laid as per CPWD specifications.
	Balcony	Anti-skid ceramic tiles 300mm x 300mm laid as per CPWD specification.

	Common Circulation	Vitrified tile 600 x 600 mm laid as per CPWD specification
	Area	
	Staircase	Vitrified tile 600 x 600 mm laid as per CPWD specification
	Skirting / Dado / Wall Cladding	Skirting / Dado / Wall Cladding shall be matching with the floor with adhesive, as given below (i) 100 mm high skirting matching the floor material (ii) Minimum 900 mm Dado in corridors / walkways
	Kitchen Platform	Ceramic tile
3.	Door & Window Frames, Shutters and Hardware Fittings	
	Main Entrance Door Frame & Shutter	Frame of external door shall be made with pressed steel/ MS Angle iron (i) Outer Shutter shall be of MS with mosquito proof wire mesh with grill (ii) Inner shutter shall be 35mm thick factory made enamel painted.
	Door Frames	pressed steel/ MS Angle iron
	Window Frame	All frames of external windows must have double rebates for fixing same material frame with mosquito proof wire mesh UPVC extruded frame sections with wall thickness min. 2.0mm
	Door shutters	The door shutter shall be ISI marked flush door shutters conforming to IS 2202 (Part 1) Non decorative type, core of block board construction with frame of 1st class hard wood and well matched commercial 3 ply veneering with vertical grains or cross bands and face veneers on both faces of shutters .35 mm thick including ISI marked stainless Steel butt hinges with necessary screws with 25mm lipping
	Door Fittings	ISI marked Aluminium fittings e.g. Tower bolts, handles, door stopper etc. (IS:1378) Handles 150 mm -2, Tower bolt 12mm dia 300mm length -2, L drop- 300mm long & 16mm dia-1, Stopper-1, Buffer -1

	Toilets shutters	24 mm thick factory made PVC door shutters made of styles and rails of an uPVC hollow section of size
		59x24 mm and wall thickness 2 mm (± 0.2 mm) with inbuilt edging on both sides. The styles and rails mitered and joint at the corners by means of M.S. galvanized /plastic brackets of size 75x220 mm having wall thickness 1.0 mm and stainless steel screws. The styles of the shutter reinforced by inserting galvanized M.S. tube of size 20x20 mm and 1 mm (± 0.1 mm) wall thickness. The lock rail made up of 'H' section, an uPVC hollow section of size 100x24 mm and 2 mm (± 0.2 mm) wall thickness, fixed to the shutter styles by means of plastic/galvanized M.S. 'U' cleats. The shutter frame filled with an uPVC multi-chambered single panel of size not less than 620 mm, having over all thickness of 20 mm and 1 mm (± 0.1 mm) wall thickness. The panels filled vertically and tie bar at two places by inserting horizontally 6 mm galvanized M.S. rod and fastened with nuts and washers, complete as per manufacturer's specification and direction of Competent Authority. (For W.C. and bathroom door shutter
	Kitchen doors	35mm thick shutter having 12mm thick pre-laminated particle board panel at the bottom part and MS wire mesh at upper part
	Window Shutter	Three track UPVC frame with double shutter one with glazed panel & other with wire mesh (of SS grade 304) shutter
	Fittings for Doors	Sliding door bolts, two tower bolts (250x10mm) and handles (125mm) of SS grade 304
	Fittings for Windows	Two tower bolts (150x10mm) and handles (100mm) of SS grade 304
4.	Water supply lines	
	External Pipeline up to 50mm	CPVC
	Internal Piping-Exposed on wall	CPVC
	Internal Piping – Concealed work	CPVC
	Soil & Waste Pipes and Fittings	UPVC

	Rainwater pipe and Fittings	Un-plasticised PVC rainwater pipe and un-plasticised PVC moulded fittings & accessories
5.	Water Proofing	
	Terrace of Top floor	As per technology proposed otherwise Koba treatment as per CPWD specification
	Sunken Area	As per technology proposed otherwise cement slurry
6.	Railing	
	Railing (balcony)	0.90 mtr high M.S. railing in all the units in staircase of approved pattern with hand railing 40 mm MS (medium class pipe) Minimum weight 14 kg per meter and vertical bars of 12mm dia square bar at 100mm c/c embedded in waist slab.(as per Drawing) The height of railing shall be 0.90mtr from finished level of steps. (Drg. to be approved by Competent Authority).
	Railing (staircase)	same as above
7.	Miscellaneous	
	Plinth Protection:	50mm CC M -15 grade over 75mm bed of CC M - 10 grade
	DELETED	
	Numbering at other places	The numbering of size 75mm in height shall be written with ISI marked enamel paint on overhead tanks, water meter box etc complete as per direction of Competent Authority

2.4 SPECIFICATIONS OF DEVELOPMENT WORKS: Specifications
To Be Adopted for On-Site Infrastructure Work

ROADS

- a. Peripheral Roads and pathways (as shown in drawing). “Providing and laying factory made chamfered edge Rubber Molded concrete colored paver blocks of required strength, thickness & size/shape, made by table vibratory method, to attain superior smooth finish using PU or equivalent moulds, laid in required mix of colour& pattern over 50mm thick compacted bed of coarse sand, compacting and proper embedding

/ laying of inter locking paver blocks into the sand bedding layer through vibratory compaction by using plate vibrator, filling the joints with fine sand and cutting of paver blocks as per required size and pattern, finishing and sweeping extra sand in footpath, parks, lawns, drive ways or light traffic parking etc. all complete as per manufacturer’s specifications & direction of Competent Authority: 80 mm thick c.c. paver block of M-30 grade with approved color design”.

The peripheral road, pathways and internal roads should be as per above specifications and in compliance with CPWD specifications.

WATER SUPPLY

50 mm dia 6 kgf/cm² UPVC including all required fitting etc. as required including connection with existing line.

SEWERAGE SYSTEM

150mm dia. PVC pipe as per IS:14333 and IS:10910 with required Manholes etc. to be provided. In this regard CPWD specifications/National Building Codes 2016 with latest amendments (if any) to be followed.

RAIN WATER HARVESTING TANK

Modular Rain Water Harvesting tank of required size will be constructed as per the CPWD specifications.

EXTERNAL ELECTRIFICATION WORK

Electric Panel: As necessary for the layout feeder Pillar Floor mounting totally enclosed compartmentalized cubical, dust vermin proof and outdoor type with required earthing plate and bus bar complete including connections etc. to be designed and submitted by EPC Contractor and execute same with approval of the Engineer-in-charge of the LIFE MISSION. The system includes:

- Providing and Laying require Electrical cable for providing electrical supply to units, as approved.
- Providing and fixing street solar Lights as required

- including fixture and ESL, as per CPWD specifications.
- Making required connections to Building and flats.
- Providing and fixing solar light connection in stair case and common area.
- P/Laying XLPE insulated / P.V.C. sheathed cables as per design vetted by PMC in compliance of local concerned Authority.

BOUNDARY WALL with Gates

The selected agency may like to use his proposed alternate technology for construction of boundary walls. Its height shall be minimum 1.5 mtr. fencing with proper water proofing and drainage.

EXTERNAL DEVELOPMENT WORKS

A. SPECIFICATIONS FOR WATER SUPPLY :

1. **Scope:** It includes excavation for pipes, laying of Ductile Iron pipes K- 9 with necessary fittings, sluice valves, fire hydrants, air valves with necessary brick chambers, jointing of pipes and fittings, accessories, refilling of trenches and testing for leakage disinfection etc. complete to the satisfaction of Competent Authority as per approved scheme in the specified boundary / area.
2. The water line system shall be laid as per the scheme approved by local authority. The sluice valves, fire-hydrants and air valves shall be IS marked. Any modification in this scheme approved by the Competent Authority shall not violate terms of contract. The work shall be executed as per latest CPWD Specification with upto date correction slips and the relevant IS Codes shall be followed.
3. **Excavation:** The work includes excavation in all types of strata. For proper jointing of pipes and fittings the bottom of the trench and sides at the relevant places should be sufficient for doing proper lead caulking of joints. The top of the pipes would have at least cushion of 60 cm from the finished surface under road berms and 1.2 M under roads or as per direction of Competent Authority.
4. Ductile Iron pipes K-9 pipes duly approved by the Competent Authority shall be used in the work. All collar jointed/flanged/ socketed fittings shall be of heavy class.
5. **Laying:** The Ductile Iron pipes K-9 shall be laid as per alignment shown in the approved drawings. In case it is considered necessary by the Competent Authority to alter the alignment as per site situations, so as to accommodate laying of other services viz. storm water drain, sewerage, horticulture pipes, and electric cables, no extra claims for the same would be entertained. While laying the pipes, it may be ensured that these water supply pipes have a horizontal and vertical separation of 3 meters and 0.5 meter respectively from the sewer pipes. The water line should in no case run below sewer line.
6. **Jointing:** Water supply pipes, fittings and specials shall be jointed together with pig lead or flanged joints where necessary as per direction of Competent Authority. The pig lead brought at site shall be got tested from laboratory and only after the results are found to be satisfactory the same would be allowed to be used in the work and shall remain in joint custody. The day to day consumption of lead shall be maintained

by the Junior Competent Authority and the same would be signed by the agency as well. The quantity of lead to be used in joints of pipes, fittings and specials would be as per CPWD Specifications / IS Codes.

7. **Chambers:** Suitable fly ash brick chambers for housing the fire hydrants and sluice valves shall be constructed in brick masonry with bricks of class designation 75 in CM 1:5. The brick chambers shall have leveling course of CC 1:5:10, the chamber shall be plastered with CM 1:3, 12mm thick with a floating coat of neat cement. The chambers shall have RCC slab on top with required opening for operation of valves as per MS Specifications, indicating plate showing the positions of fire hydrants, and sluice valves also be provided.
8. Cement Concrete 1:2:4, thrusts blocks shall be provided as per CPWD Specifications for the various fittings/accessories.
9. **Disinfection/Testing:** After the work has been completed the lines shall be flushed with water containing bleaching powder @0.5gms/litre of water and cleaned with fresh water and the operation repeated 3 times till the sample of water is approved by Municipal Laboratory.
Pipes laid shall be tested at twice the maximum allowable pressure to check water tightness of the joints and to detect any hair cracks in the pipes. After satisfactory completion of the work, 5 sets of completion plans, showing the alignment of lines, location of air valves, sluice valves, fire hydrants along with.
10. The work may be inspected by officials of local municipal/statutory authority or any other agency designated by LIFE Mission during execution.
11. UGR of required capacity with boosting arrangement in pump house i/c necessary installation for supply of water in the houses as per approval accorded. The design of UGR along with its capacity and pump house details such as power, motor details and others shall be as per the CPWD specifications.
12. The work shall be executed as per approval accorded by local authority and the design and drawings by Competent Authority, shall be final and binding on the agency and will not be open to questions.

B. SPECIFICATION FOR SEWERAGE:

The work shall be executed as per approval accorded by local authority and the design and drawings by Competent Authority, shall be final and binding on the agency and will not be open to questions. This work shall include excavation in all strata, laying stone ware, RCC, NP2/NP3, S&S pipes, construction of manholes, providing SFRC manhole covers, frames, heavy duty, foot rests with necessary brick work in cement mortar, plaster, bed concrete and concrete up to haunches and around the pipes wherever required.

GENERAL:

1. Circular Manholes:
 - a) Manholes shall be provided:
 - (i) At starting point of each line,
 - (ii) At all change points, (Gradient, size of the pipe, alignment)
 - (iii) At all junction points of two or more lines. Manholes should be so spaced that each properly discharged in the direction of flow, and maximum centre to centre spacing of manholes will be as per prevailing Bye-laws.
2. Sizes of manholes:

As design complying CPWD specifications for the entire scheme of Life Mission Towers.
3. The depth of the manhole shall be taken as vertical distance between top level of SFRC cover and invert level of channel in the manhole. The work includes excavation in all types of soils for construction of manholes complete with orange color safety foot rest of minimum 6mm thick plastic encapsulated as per IS:10910.
4. All manholes to be plastered both inside and outside with cement mortar 1:4 (1 cement: 4 coarse sand) with a floating coat of neat cement inside.
5. When sewer is being laid under sub-soil water 15cm thick stone soiling shall be provided under concrete bedding and 23cm thick under manholes.
6. Heavy duty SFRC manhole frames and covers 560mm internal dia. will be provided weighing 182 Kg. and to be tested as per IS:1726 (Part-I) for heavy duty loads. The covers shall be embossed with its year of manufacture and work 'SEWER' and IS Mark.
7. Drop Connection: Normally, no sewer line shall have a drop of more than 0.610 mtr. in any case. Wherever, the drop is more, a drop connection arrangement shall be provided as per sketch in CPWD Specification 1996, with amendments till date.
8. Pipes:Laying of sewerage lines shall include excavation in all types of soils, providing and laying of RCC, S&S pipes, NP2/NP3 as specified with rubber ring joints, testing and refilling etc., the completion of job to the satisfaction of Competent Authority and according to the specifications prescribed.
 - (i) The S&S, RCC, NP-2/NP-3 pipes as per requirement / approved scheme IS marked will be used, with rubber ring and cement mortar joints.
 - (ii) Pipes laid at a depth less than 0.910m under road berms and 151

green belts, and more than 4.57m shall be encased with 1:4:8 (1 cement : 4 fine sand : 8 graded stone agg. 40mm nominal size) cement concrete 15cm thick on all sides including under the pipes.

- (iii) Extra excavation of at least 0.23m width in each side will be done for proper jointing of pipes at the location of sockets.
 - (iv) No sewer line shall be laid within a distance of 3.25m from building line - in case of roads. In case of service lanes / roads the sewer line shall be laid at centre of the lanes.
 - (v) The minimum size of pipe to be used shall be as per approved scheme.
 - (vi) In case the pipe are laid under sub-soil water level, the encasement shall be done with 1:3:6 (1 cement: 3 coarse sand: 6 graded stone aggregate 40mm nominal size) instead of CC 1:4:8.
 - (vii) In other cases 0.15m bed encasement with 1:4:8 (1 cement : 4 fine sand : 8 graded stone aggregate 40mm nominal size) cement concrete up to haunches of pipes shall be provided, the stone ballast shall be of 40mm nominal size for bed concrete and 20mm nominal size for around encasement of pipe. Where cushion is less than 0.90m around encasement of pipe with same mix will be done.
 - (viii) Where the invert level of the manhole is 1.22m or more below the subsoil water level, 0.115m thick core of CC 1:2:4 (1 cement: 2 coarse sand : 4 graded stone ballast 20mm nominal size) shall be provided in the walls of the manhole up to 0.61m above sub-soil water level in order to prevent infiltration of sub-soil water level, from the sides of the manhole shall be provided with 15cm thick 1:2:4 (1 cement : 2 coarse sand : 4stone aggregate 20mm nominal size) RCC slab, monolithically with the core of the wall of the manhole lean concrete of 1:5:10 (1 cement : 5 fine sand : 10 graded stone aggregate 40mm nominal size) of 0.075m thick shall be provided under the slab.
9. Tests: The sewer line laid will be subject of following three tests:
- a) Smoke Test: To check the air tightness of joints.
 - b) Mirror Test: To check the straight alignment of pipes.
 - c) Disc Test: To see that lines are free of dead/set concrete/ mortar/other blockages and lines laid are in straight line from manhole to manhole.
10. Any other tests, if required during course of execution will be decided by the Competent Authority and will be binding on the agency.

NOTE: Nothing extra is to be paid to the agency for testing of pipes etc.

11. The agency will submit to Competent Authority adequate sets of completion plan of sewerage system laid showing position of manholes with its centre to centre distance dia. of lines, gradients, location of drop connections, connecting point with ground levels and invert levels at each point within 10 days of completion of the sewerage

work. The service plan (in original) approved by the local body along with their forwarding letter be also submitted to the Competent Authority.

12. The following stops shall be maintained while laying the pipes:

<u>S. No.</u>	<u>Dia. of Pipe</u>	<u>Slope</u>
1.	250mm	1 in 190
2.	300mm	1 in 245
3.	350mm	1 in 300
4.	400mm	1 in 360
5.	450mm	1 in 510
6.	500mm	1 in 590

13. Crossing over nallahs shall be done by C.I. pipe with necessary support.

14. The conditions mentioned in the approved scheme of local authority shall be followed strictly.

C. SPECIFICATIONS FOR STORM WATER DRAINAGE:

C/o storm water drainage shall include excavating in all types of soils, providing and laying brick work with FPS bricks of CD-75 in CM 1:4 (1 cement : 4 coarse sand. Plastering of inside and top of both walls of drain shall be in CM 1:3 (1 cement : 3 fine sand) with floating coat of neat cement and outside plastering 6” in depth both side, CC 1:5:10 (with coarse sand) in bottom & CC 1:2:4 in channel of drain then covering of all drains with SFRC covers of design mix M-25.

Following specifications will be used for providing underground pipe drainage in the complex.

1. The work will be executed as per the design and layout approved by the local municipal authority.
2. FPS bricks of CD-75 shall be used.
3. Minimum width of the drains shall be 230mm or as per CPWD specifications.
4. SFRC covers of design mix M-25 shall be provided on all the drains.
5. Any other details, if required during course of execution will be decided by the Competent Authority and will be binding on the agency.

D. SPECIFICATIONS FOR ROADS, PARKINGS & PATHWAYS:

1. Construction of internal approach roads and parking’s will be done as per layout plan and standard laid down by local authority. The agency will ensure that roads are developed to the dull right of way. The required metalled width will be provided to the exact crust thickness as per norms. The agency will ensure that nowhere the right of way of roads reduces. The roads will be laid to camber longitudinal as well as cross-section wise.

The job of construction of roads consists of preparation of sub-grade, consolidation of the same, filling and compacting the earth work in embankment under optimum moisture conditions to give at least 95% of the maximum dry density (proctor density), supplying locally available stone and screening of blue texture of the required laying of base and sub-base courses using binding and blinding material and necessary rolling as per specification, brick on edge and pre-mixing etc. The surface dressing of the berms of roads will be done in such a fashion so as to discharge the rain water of the open areas to the storm water pipe drainage. MORTH guidelines will be followed in case of any omissions.

2. Surface dressing of the berms with slope towards drainage system.
3. CC 1:2:4 (1 cement : 2 coarse sand : 4 graded stone aggregate 20mm nominal size) pre-cast kerb stone fair face finish in uniform colour, of 0.30m long and 0.20m x 0.20m section as per CPWD Specifications / direction of Competent Authority jointed with the mix 1:2 (1 cement : 2 fine sand) to be provided as per architectural drawings.
4. Toe walls in brick masonry with bricks of class designation 75 in cement mix 1:4 for pavements/footpaths wherever necessary.
5. RCC NP2 S&S pipe joints in rubber rings and cement mortar 1:2 (1 cement : 2 fine sand) for cross drainage with gully chambers of size 50x45x60cms with M.S. grating of size 500x450mm wherever necessary as per decision of the Competent Authority.
6. Any other details that crop up depending upon site conditions will be decided by the Competent Authority and will be binding on the agencies.
7. The specifications of CC pavement/footpath shall be as under:
 - a) 100mm thick CC 1:5:10 (1 cement: 5 fine sand: 10 graded stone agg. 40mm nominal size)
 - b) 100mm thick CC 1:2:4 (1 cement: 2 coarse sand: 4 graded stone agg. 20mm nominal size) over under layer of CC 1:5:10 as per para 'a' above.
 - c) Toe wall brick masonry with FPS bricks of class designation 75 in cement mortar 1:4 (1 cement: 4 coarse sand) to retain the edge of the paving.
8. The work will be done as per CPWD Specifications 2009 Vol. I &II with upto date corrections. Any other width of road as per approved development plan shall be as per prevailing norms.
9. The agency shall submit to the Competent Authority, adequate sets of completion plans for roads, paths after its completion showing right of way of each road/path and their respective cross section within 10 days of completion of road/path work.

SECTION-D
PAYMENT – SCHEDULE

1.0 All running /intermediate & final payments shall be made to the agency in accordance with the following schedule:

2.0 The basis of payment on “Pro rate basis” shall be worked out on the percentage of work done out of total scope of work.

Sl. No	Activity	% payable
1.	Investigation, planning, Designing and obtaining approvals	
1A	Submission of Inception Report, detailed survey, Architectural drawings ready for submission for approval of local bodies	
1B	On approval of local bodies, EIA clearances and other statutory approvals of local bodies, Architectural drawing showing electrical and sanitary layout plan and drawings and its submission	
1C	On submission and approval of Vetted structural design by Competent Authority	
	On completion of above (1 to 1C)	1 %
2.	On completion foundation up to Plinth Level.	8%
3.	Completion of G.F. Super structure including doors, windows and complete kitchen works, Toilets and staircase.	15%
4	Completion of structure works of 1 st floor including doors, windows, kitchen works , stair case.	15%
5	Completion of structure works of II nd floor including doors, windows, kitchen works , stair case	15%
6	Completion of structure works of III rd floor including doors, windows, kitchen works , stair case	15%
7	Completion of Super structure works staircase parapet over head tanks, water proofing works. Terrace	5%
8	Completion of finishing works i.e. internal finishing , fixing of door, window, shutters , Tile works in kitchen , toilet bathroom , painting, fixing of accessories , fittings including plumbing/electrical/drainage works	
8 a.	Ground Floor	3%
8b.	First Floor	3%

8c.	Second floor	3%
8d.	Terrace floor	3%
9	Finishing of common area & external finishing complete	3%
10	External development works	3%
11	Built drawings submission, approval; & NOC from local authority occupation certificate	3%
12	Completion and Handing over of project	5%

DETAILED TECHNICAL SPECIFICATIONS

1.0 Light Gauge Steel Structural System & Pre Engineered Steel Structural System

1.1 Light Gauge Steel Structural System

(1. M/s Mitsumi Housing Pvt. Ltd., 2. M/s Everest Industries Ltd., 3. M/s JSW Steel Ltd., 4. Society for Development of Composites, 5. Elemente Designer Home 6. M/s MGI Infra Pvt. Ltd., 7. M/s RCM Prefab Pvt. Ltd., 8. M/s Nipani Infra and Industries Pvt. Ltd., 9. M/s Strawture Eco, 10. M/s Visakha Industries Ltd.)

1. Fabrication & Installation of LGSF Framing Components

Designing, providing, installing and fixing factory finished custom designed cold form Light Gauge Steel Framed super structure comprising of steel wall panel, trusses, purlins etc manufactured out of minimum 0.75 mm thick steel sheet as per design requirements. The steel sheet shall be galvanized (AZ-150 gms Aluminum Zinc Alloy coated steel having yield strength 300- 550 Mpa) conforming to AISI specifications and IBC

2009 for cold formed steel framing and construction and also as per IS: 875- 1987 (Part-I; Dead Load , Part-II; Imposed load, Part-III; wind load , Part-IV; Snow load, and Part-V; Special load & load combinations), IS 800-1984 (Code of practice for general construction in steel) and IS: 801- 1975 (Code of Practice for Use of Cold Formed Light Gauge Steel Structural Members In General Building Construction). The wind load shall be as per provisions of IS 875 (part - III). LGSFS frame shall be designed as per IS:

801 using commercially available software such as Frame CAD Pro-11.7/ STAAD PRO-V8i/ArchitekV2.5.16/ Revit architecture2011 or equivalent.

The framing section shall be cold form C-type having minimum web depth 89 mm x 39mm flange x 11mm lip in required length as per structural design requirement duly punched with dimple/slot at required locations as per approved drawings. The slots will be along centre line of webs and shall be spaced minimum 250mm away from both ends of the member. The frame can be supplied in panelized or knock down condition in specific dimensions and fastened with screws extending through the steel beyond by minimum of three exposed threads. All self drilling tappingscrews for joining the members shall have a Type II coating in accordance with ASTM B633(13) or equivalent corrosion protection of gauge 10 & 12, TPI 16 & 8 of length 20mm. The frames shall be fixed to RCC slab or Tie beam over Neoprene rubber using self expanding carbon steel anchor bolt of dia as per approved drawings, design subject to minimum 12mm diameter and 121mm length conforming to AISI 304 and 316 at 500mm c/c with minimum embedment of 100mm in RCC and located not more than 300mm from corners or termination of bottom tracks complete in all respects.

Hot rolled Steel sections as per design & conforming to IS 800 can be used for buildings higher than G+3.

2. Connections

Proper usage of Connection Accessories like Heavy duty tension Ties, Light duty Hold-ons, Twist Straps (to connect truss with wall frames), Strong Tie, Tie Rod, H-Brackets, Boxing Sections, L-Shaped Angles shall be ensured for required structural integrity & stability.

3. Walling Components

Walling with Fiber Cement board

Providing and fixing of external wall system on Light gauge steel frame work with outer face having 6mm thick heavy duty fiber cement board fixed on 9mm thick heavy duty fiber cement board confirming to IS 14862:2000, category IV type A (High pressure steam cured) as per standard sizes fixed with self-drilling / tapping screws / fasteners @ 60cm c/c of approved make. A groove of 2 mm to 3mm shall be maintained and grooves shall be sealed with silicon based sealant. Alternatively to improve aesthetic, cladding board of exterior quality of minimum 6mm thickness may be used instead of 6mm fiber cement board with approval of Engineer in charge.

The board shall be fixed in a staggered pattern. Screws shall be of outer sunk rib head of 1.60mm to 4 mm thick of 8 to 10 gauge of length varying from 25 to 45 mm and internal face 6 mm thick fiber cement boards fixed on 8mm thick fiber cement boards both confirming to IS 14862:2000 of category III type B (High pressure steam cured) as per standard sizes fixed with self-drilling / tapping screws / fasteners @ 60cm c/c of approved make, proper tapping and jointing to be done using fiber mesh tape and epoxy and acrylic based jointing compound for seamless finish.

A breathable vapour barrier underneath the cement fiber board as per National Building Code 2009 is to be provided complete as per direction of Engineer-in-charge.

Any other suitable in-fill walling materials can be used in the system, however it shall be such that the completed wall provides fire resistant & other properties as per the requirements given in National Building Code 2016.

4. Floor/ Slab

RCC floor/ roof slab as per design conforming IS 456 over deck sheet shall be provided. The thickness and profile of decking sheet shall be verified with the erection drawings. These are normally used as temporary supports for the concrete till hardens. Decking sheet has to be screwed to the joist with maximum spacing of 600 mm c/c for uniform action of concrete and joist. All the joints of decking sheets longitudinal direction require a minimum lap of 100 mm.

Note:-

- **Refer DSR Sub Head: 26 - New Technology and Materials – Items Code no. 26.41 to 26.45**
- **In Item Code No. 26.42 – Inside Second layer of External wall instead of 12.50mm Gypsum board replace and provide 6mm Fiber Cement Board.**
- **In Item Code No. 26.43 – Second layer of Internal partition wall, for Both side instead of 12.50mm Gypsum board replace and provide 6mm Fiber Cement Board.**
- **Sandwich with Rockwool / Glass wool with required thickness as per wall vetted design provided by EPC contractor. The minimum thickness should be 50mm.**
